VOLUME 31

ANNUAL EDITORIAL INDEX

JANUARY TO DECEMBER 1959

SUBJECTS

(Authors' Index Follows Subject Index)

A

Additives
- Antibiotics added to feed produce heavier, healthier livestock — Sept. *89
- Dispenser mists foods with additives (e) — June *125
- Don't be among casualties on additives day (ed) — Nov. 33
- Don't let the cranberry be a useless martyr (ed) — Dec. 31
- GDL for leavening cuts bread baking time — Oct. 149
- Get your additive chips in line, pronto (ed) — Jan. 35
- How new additive law affects your packages. Ingle & McCarthy — July *42
- Ingredient helps retain "as-baked" softness (e) — May 122
- Joint government-industry national conference discusses additive problems – report, F. K. Lawler — Dec. *37-41
- Know your new additive law! F. K. Lawler (table) — Jan. 46
- Lysine fortification has no noticeable effect on flavor (A) — Apr. 107
- New protein hydrolysates — Aug. 113
- Stabilizer for sherbets (e) — June 138
- Wheat gluten additive — July 107

Adhesives
- Bonding agent, Kwik (e) — Apr. 134
- Bonds concrete, metal, wood (e) — Feb. 139
- Multi-purpose adhesive for packaging (e) — June 137
- Repair Compound called Plastic Mastic (e) — Apr. 134

Advertising
- "Ads pay? And how!" – GF's Pres. Mortimer — Aug. 56
- "Better Meals" drive – FE hits the mark — Dec. 47
- "Better Meals" drive – FE polls response of food firms, newspapers — Aug. *52
- Food ads bloom on TV — Oct. 63
- For what else is an advertisement? (ed) — Mar. 31
- A peek behind the media curtain — Sept. 54
- Premiums, if well-chosen, can boost sales to women — Oct. 63
- TV spending up — July 38
- Two-way GMA meeting points ways to progress (ed) — July 27

Aerosols
- Aerosol packaging unit produces up to 600 cans/hr. — Oct. *138
- Chocolate syrup — Mar. *24
- Frozen coffee concentrate packed in aerosol can — Aug. *28
- Hinged spout for aerosol — Feb. *22
- Liquid coffee in aerosols — Feb. *62
- Liquid instant coffee — Jan. *22
- Orange drink – concentrated orange drink packed in aerosols — Sept. *26
- Toppings – chocolate foam topping (P) — July 91
- Valves aerosols at 120 min. (e) — Feb. *124

Air conditioning
- Dehumidifier, a completely automatic "packaged" adsorption unit (e) — Dec. *117
- Filters improve cleaning of plant air (e) — July *101
- Fish quality upped, ice consumption cut by cold air circulation in trawler hold (A) — Jan. 89
- Air Compressors – Practical tips — Nov. 87
- Air Pollution – Fume gobbler pays extra benefits (chart) — Dec. *65
- Alcohol – Solvent $$ saved from air, J.B. Witwer — Mar. *60

Aluminum
- Brewing company – another convert to aluminum cans — Sept. *25
- Economical aluminum can narrows price spread, Frank Pitman — Feb. *58
- Frozen food packages for electronic ovens — Dec. *25
- Lids sealed on 100 trays a minute (e) — Aug. *105
- Now – aluminum cans for frozens — Oct. *74
- Ammonia – Q.A.C. tests speeded with compact kit (e) — Dec. *115

*Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents.

Antibiotics
Extend shelf life of prepeeled potato strips (A) Nov. 101
Fish – antibiotic now OK for fish May *41
Terramycin and other antibiotics added to livestock feed boost profits Sept. *89
Yeast species predominate on antibiotic-treated birds (A) Feb. 101
Antioxidants – Effect of antioxidants on some food products (A) Feb. 109

Apples
Dehydrocanning process (P) May 101
Oil impregnated paper controls apple scald (A) Jan. 89
Pallet bins, hydraulic dumper cut handling costs May *81
Asparagus – Waterproof package for asparagus July *24

Automation
Auto-controls water bean sprouts June *88
Automatic cold water system controls beer fermentation. William Hamilton June *91
Automatic warehouse – special picture-and-blueprint feature gives you revealing closeup of Jerseymaid's robot order-filling Dec. *88
Bakery holds profit line with automation. Alexander Astrack Apr. *82
Blue mold cheese – automation ups uniformity (A) Sept. 97
Controls process for top quality instant coffee. B. B. Ritchey Nov. *77
Filling-mixing automated June *88
Filters – automatic filters take over at Vegetable Oil Products Co. Stewart & Passalaqua Dec. *68
Foods analyzed – in-stream Feb. *94
How central graphic panels automate bulk-food operation. Dyer & Young (chart) Sept. *70
Ingenious bulk-flow controls up handling efficiency – dial-a-bin system M. Asproyerakas Feb. *88
Jams and jellies packaged in single portions by completely automatic machine Dec. *59
New handling techniques end "shipper" bottlenecks, speed casing operations – report. J. V. Ziemba Oct. *64-68
1-man sugar-service plant Nov. *51
1-point control cuts labor 2/3 in Texas sugar refinery. Lorraine Smith Oct. *78
Panel mounted pushbuttons automate coil defrosting. Minos Asproyerakas Feb. *80
Photoelectric eyes automate door action. Grant Vroman Mar. *67
Plant of the future today – British ice cream factory features automatic central-panel control of receiving, mixing, and freezing. Shirley Kendrick Mar. *61
Remote control warehouses may be next in cutting distribution costs Dec. 47
Robot for formula batching (e) Sept. *111
"Scales" fruit and sugar into cans automatically. Brown & Phillips Jan. *75
Semi-automatic hardening room for ice-cream – modern handling, low-cost way. Lyle Kellogg Apr. *89
Smarter your revamp, bigger the savings. A. C. Eichberg Apr. *79
Teams CIP with process control. E. Scott Welch & others Feb. *92
Timed-program system "robots" processing of liquid sugars at Great Western. J. V. Ziemba (chart) Dec. *62
Transducer tabs automation motions (e) Aug. *103
Awards – Folding Paper Box Association annual competition winners – 7 boxes May *67

B

Baby Food
Boilable pillow-packs for frozen baby food Apr. *32
Bread for baby Apr. 37
Planning a menu for Junior June *27

Bacteria
Factors influencing yield of beta-carotene (A) Aug. 91
Pectinolytic fungi in brine cause pickles to soften (A) June 111
Penicillium spinulosum, grown on glucose-salts medium, produces fat (A) July 39
Salmonella detected by special media (A) May 105
Sarcina sickness origin of diacetyl formation in beer (A) July 92
Source of cured-meat flavor (A) July 89
Unit curbs bacteria, molds (e) Sept. 107

Bags
Boilable bags contain shrimp and crab seasonings June *27
Flexible bag for instant soft drinks June *28
High-run bag palletizer (e) Aug. *105
Ice-filled perforated bags cool milk in delivery trucks Oct. 91
Polyethylene bags – new wrap for loose frozen vegetables and fruits June *61
Polyethylene pouch boosts frozen berry sales (chart) July *46
Polyethylene – tough film for heavy duty bags features 40% lower material gage (e) Oct. 135
Vinegar samples – in bags! Oct. *27

Bakeries and Baking
Bread sticks and pizza packaged together June *27
Bread sticks – flakier sticks made with Frisco's new machine. Jack Meyer Aug. *70
Brownberry Ovens' home-style quality rockets small Wisconsin firm into big time. J. V. Ziemba Sept. *48
Cake mix – first cake roll mix, produced by Betty Crocker May *27
Chocolate coating recovery system May *84
Conveyor system gently unloads bake oven May *81
Cookies for the home circle Nov. *27
Cookies – three new "Chips" for Keebler Dec. *24
Early staling of cakes (A) Sept. 99
English muffins – "ship 'n sell" case makes winner out of sleeper Nov. *66
Extruder – for quantities of semi-solid foods (e) May 113
Flour lipids' role (A) June 116
Heating, moistening flour improves baking quality (P) May 105
Holds profit line with automation. Alexander Astrack Apr. *82
In-store baking – freezing is key Feb. *75
Ingenious bulk-flow controls up handling efficiency. M. Asproyerakas Feb. *88
Line-feed infra-red oven (e) July *104
Lyons of London makes foods on conveyors – but fast! – FE reports on Europe. F. K. Lawler Nov. *68-70
Mixes – double-wrap cake mixes Mar. *23
Newest trick in mixing – pressurized device speeds output May *74
"Our follow-up put it over!" Mar. *45
Pizza package – Totem-Pak for frozen product Mar. *23
Pizza sandwiches Nov. *26
Processes get a screening in Bakery Engineers session July *61
Pudding-cake mixes Jan. *24
Sara Lee's new facility – dream plant come true. J. V. Ziemba Oct. *83
Unique oven guards quality Mar. *63
"We put 1 worker in every 10 on sanitation" Alfred Lingo Feb. *40

Batch Operations
Batch control simplified to mere "plug-in" (e) Apr. *117
Robot for formula batching (e) Sept. *111
Batteries – Chart assures accuracy when charging batteries (chart) Oct. 89
Beans – Bean sprouts watered by auto-controls June *88

Beer
Ale – "true ale" for westerners introduced by Lucky Lager Oct. *26
Ammonia in worts (A) Aug. 95
B-lysolecithin now seen as source of beer foam (A) Mar. 86
Big get bigger Mar. 51
Brewery now cleans with ultrasonics. E. K. Minor June *72
Diacetyl formation in beer (A) July 92
Evaluating beer foam (A) Feb. 102
Fermentation controlled by automatic cold water system. William Hamilton June *91
Flavor intensity of beer (A) Sept. 99
Modified malting process improves beer quality (A) Nov. 105
Newly-designed can and six-pack carton aid brand identification Dec. *25
Porphyrins in beer (A) Aug. 92
Profile of the beer market Aug. 56
Puts draught beer in cans. Frank Pitman Feb. *97
"Tapless" home keg for beer Nov. *26

Belting
Belt-within-belt for drying (e) Apr. *126
Dries 300 cans a minute (e) June *125
"Flanging" sanitary belting (e) Mar. *103
Mile-long system of stainless steel belts in Dutch cheese warehouse. W. van Wijnen. (chart) Aug. *89
Moisture resistance of belts (e) Jan. *110
Trough-belt speeds drying (e) Mar. *103

Beverages
Are you set to ride the youth boom? Pepsi-Cola lays strategic groundwork for capturing big market. T. C. Taylor (charts) Apr. *49
Coca-Cola – "coke" in cans gets market test Sept. *24
Coffee – Target: improved soluble coffee Michael Sivetz (charts). May *92
Cola in a straw – Sip-a-Cola to drink or to eat like candy Sept. *24
Instant soft drink packaged in flexible bags June *28
Instant soft-drink tablets come in six flavors May *26
Lemon-lime flavored soft drink Apr. *37
"Make-it-yourself" drinks flourish Aug. 56
Orange drink – concentrated orange drink packed in aerosols Sept. *26
Preventing chill haze (P) Mar. 86
Vitamin C relatively stable in natural fruit drink (A) Feb. 102

Bins
Dial-a-bin system automates flow of dry material. M. Asproyerakas Feb. *88
Handy transport bin (e) Sept. *109
Rotating leveler streamlines bin discharge and filling (e) Aug. *105
Sanitary ingredient bins (e) Nov. *122
Tube-bin slashes handling costs at Diamond Walnut Growers, West & Havighorst Aug. *72
Blanching – Infrared blanching ups FF quality (A) Dec. 103
Boilers – Compact steam supplier (e) May *113

Bottling
Air jet safety device shuts off filler, prevents bottle jam-ups Jan. *75
Brewery now cleans with ultrasonics. E. K. Minor June *72
Champagne – precedent-breaking system triples output at Masson's winery. L. A. Berti July *50
Consolidation of operations boosts output at Rochester Dairy Cooperative. Hackman & Maas July *52
Fills liquids "bottom up" (e) Mar. 100
Throw-away bottles for carbonated beverages Oct. *26

Boxes
Carton-printing speeded by new case printer Oct. *133
Cartons printed as formed (e) July *104
Cost-cutting disposable boxes used for shipping test samples Nov. *83
Divisible corrugated carton, called Twin-Pac, for bulk food packing May *27
Folding Paper Box Assn. annual competition winners – 7 boxes May *67
Handy fold-stack boxes (e) Dec. *117
Moisture-resistant corrugated box Jan. *23
"Paul Bunyan Box" developed by American Airlines Feb. *43
"Press and stick" boxes make debut Jan. *22

Bread
Bread for baby Apr. 37
Bread sticks and pizza packaged together June *27
Bread sticks – flakier sticks made with Frisco's new machine. Jack Meyer Aug. *70
Brownberry Ovens' home-style quality rockets small Wisconsin firm into big time. J. V. Ziemba Sept. *48
Canned rye bread (P) Jan. 91
Chemical for leavening cuts bread baking time Oct. 149
Flavor of bread unharmed by lysine fortification (A) Apr. 107
Ingredient helps retain "as-baked" softness (e) May 122
Instant bread, goal of QM's experiments May 45
Jewish rye bread dough – device eases mixer problems Oct. *89
Wrap boosts bread sales 500% Sept. *25

Brewing
Detection of strains in pitching yeast (A) Aug. 91
Dutch brewer has new ideas – FE reports on Europe. F. E. Lawler Dec. *60-61
Malt improved with gibberellinic acid (A) May 101
Multi benefits apparent in new malts. W. J. Olson Oct. *103
New process makes wort continuously (chart) XP Sept. *97
Quality control of hops and hopping (A) Sept. 97
What malt is . . . types described Oct. 104

Browning
Apple scald controlled by oil impregnated paper (A) Jan. 89
Protecting nut meats (P) Jan. 89
Butter – Rx for ailing product: improved quality and luxury wrap let butter compete with low-priced spreads Dec. *50

C

Canning and Preserving
Aluminum cans – new containers for frozen berries Oct. *74
Apples – dehydrocanning process (P) May 101
Au gratin potatoes introduced in cans Dec. *25
Cellulose belt dries 300 cans a minute (e) June *125
Check retort operations. NCA Committee on Retort Equipment & Operation June *82
Cherries – Top-efficient canning system at Dwan's uses bulk-tank inflow – flowsheet June *77
Controlling sweat damage to cans (A) June 115
Cooker-cooler (e) June *127
FE poll finds definite favor for "canned foods month" Jan. 55
Fruit spreads cooled for quality. Brody & Bedrosian Nov. *98
Irradiation's status as food preservative (A) Oct. 117
Lithographed cans for vegetables Aug. *27
Orange juice – O_2 speeds ascorbic loss in canned orange juice (A) June 112
Puts draught beer in cans. Frank Pitman Feb. *97
Rice – cohesiveness of cooked kernels reduced by emulsions (A) Oct. 120
Rye bread (P) Jan. 91
Sauce-Quik switches to cans Dec. *24
"Scales" fruit and sugar into cans automatically. Brown & Phillips Jan. *75
Slashes can-seaming costs Nov. *64
Striking step-up in can handling. C. R. Havighorst Nov. *60
Tomato canner speeds peeling 20% Sept. *77
Unit gives precise filling June 91
Carotene – Factors influencing yield of beta-carotene (A) Aug. 91
Case history of month, Jan. – 57, Feb. – 51, Mar. – 49, Apr. – 67, May – 55, June – 56, July – 35, Aug. – 54, Sept. – 53, Oct. – 62, Nov. – 52, Dec. 49
Cellophane – Winter-season precautions for care of cellophane Nov. *83

Centrifuge
High-rate test centrifuge (e) Apr. *117
Highly versatile centrifuge Oct. *137

Cereals
Champions spark Wheaties cereal cartons Sept. *25
Heating during processing cuts life of oat cereals (A) Mar. 85
Oat cereal launched by Kellogg Oct. *28
Ready-to-eat cereal – machine produces cereal of distinctive honeycomb appearance (P) Feb. *101
Sugar-coated Frosty O's Nov. *28

Cheese
Automatic controls, signals speed cheese-making (A) Jan. 90
Blue mold cheese – automation ups uniformity (A) Sept. 97
Continuous, automatic salting of curd features new cheese process (P) Mar. *83
Cottage cheese improved by special creaming mixture (A) Sept. 97

*Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents.

Gorgonzola improved (A) Mar. 83
H_2O_2 as whey preservative (A) Sept. 97
Mile-long conveyor system in Dutch warehouse moves 350 tons a week. W. van Wijnen (chart) Aug. *89
Processed cheese spread from the Ol' Sod Apr. *32
Protective packaging sharpens quality control program at Ryser. Stephen Gaymont June *62
Ultrasonic treatment of curd gives better product in less time (chart) (P) July *89
Cherries – Canning system at Dwan's is top-efficient – flowsheet June *77

Chocolate
Chocolate peppermints displayer holds 24 packages Nov. *27
GC detects substitute fats in chocolate products (A) Oct. 119
Heat resisting chocolate (A) Mar. 83
New method ups accuracy of chocolate grind test (A) Apr. 107
Synthetic chocolate (P) Jan. 91
Toppings – chocolate foam topping (P) July 91
Viscosity of chocolate by new equation (A) Feb. 105

Chromatography
Gas chromatograph for multi, high-purity separations (e) May *113
GC detects substitute fats in chocolate products (A) Oct. 119
Gas chromatography: striking new guide to better foods – report. A. V. Gemmill (charts) July *77-83
Sharpens control of flavor components. E. C. Fearns July *78
GC strides in food research. L. S. Fagerson July *80
Targets gourmet qualities. W.S. Ryder, Jr. July 81
Problems "flavor prints" can solve. E.E. Lockhart July 82
Coming – an analytical revolution. D.A.M. Mackay July *82
Speeded by computer (e) July *104
Cider – Organisms and enzymes degrade cider pectin (A) Nov. 102
Citric acid – Diacetyl yield increased (A) Feb. 110

Cleaning
Automatic case cleaner (e) July 101
Battery-run sweeper for congested spots (e) June *127
Brewery now cleans with ultrasonics. E.K. Minor June *72
Case cleaner cleans 44 cases a min. (e) Nov. *116
Cleanability of materials (A) Apr. 108
Cleanser's hue tells potency (e) Feb. 139
Effective in-place cleaning. W. G. Jennings (charts) Oct. *98
Empties fat drum fast. B.R. Suri Feb. *83
Enzymatic fish cleaning (A) Aug. 92
Floor cleaner offers two-speed motor (e) Feb. *128
Sanitary wiping pads speed cleaning chores (e) Nov. 126
Slime eliminator (e) Dec. 118
Solvent that has "cling" (e) Feb. 139
"Spraying elevator" speeds truck cleaning May *96
Sterilant for walls and floors is potent against micro-organisms (e) May 122
Sweeper designed for cleaning congested areas Apr. *119
Teams CIP with process control. E. Scott Welch & others Feb. *92
Top-power floor cleaner (e) Apr. *121
Ultrasonic parts-cleaning unit (e) Oct. *137
Vacuum cleaners – Imperial markets new industrial line (e) Oct. 133
Vacuum scraping tool removes "caking" (e) June *127
Walking lawn sprinkler really cleans tanks William Hamilton Feb. *79
"We put 1 worker in every 10 on sanitation" Alfred Lingo Feb. *40
What not to do in plant sanitation. Ray Millard Apr. *52
Clothing – Disposable "one-wear" work garments (e) Oct. *142

Coatings
Aluminized coatings (e) June 137
Anti-stick spray coat for use on metal incorporates Teflon and Kel-F plastics (e) Nov. 125
Plastic coatings (e) Dec. 121
Tough "trowel on" coating for plant floors (e) Mar. 115
Two protective coatings (e) June 137
Zinc coating is self-curing (e) Dec. 118

Coatings, Food
Chocolate coating recovery system May *84
Nuts – new coating for nutmeats Oct. 149
Plastic coated foods (P) Mar. 83

Coffee
Acid bodies captured and returned to make better instant coffee (P) Nov. *101
Controls process for top quality instant coffee B. B. Ritchey Nov. *77
Egg coffee Jan. 24
Frozen coffee concentrate packed in aerosol can Aug. *28
Gas chromatography helps analyze secrets of flavor and aroma July 82
Liquid coffee in aerosols Feb. *62
Target: improved soluble coffee – five techniques for more flavorful "instant" Michael Sivetz (charts) May *92
Vending machine brews 1 cup at a time July *23
Volatile flavor recovery and return feature new soluble coffee process (P) Apr. *107

Colors
Enzyme controls color of fruit juices (A) Jan. 90
FDA's OK of "lake" colors clears way to more attractive products and packages July *86
Food colorimetry: key to quality control – report. G. E. Livingston (tables)
Pt 1 Available tools Mar. *74-79
Pt 2 Specification systems Apr. *98-103
Gas chromatograph for multi, high-purity separations (e) May *113
Meat color protected by spray (P) Oct. 119
Pork color influenced by pH (A) June 111
Protecting color, flavor of dehydrated potatoes (P) Aug. 92
Vegetables – preventing discoloration (P) Apr. 109

Communications
Desk-top control eliminates phone dialing (e) June *133
Intercom in new form (e) June *127
TV for in-plant remote viewing (e) Sept. *115

Concentration
Coffee – frozen coffee concentrate in aerosol cans Aug. *28
Crystallized milk cakes for Japanese soldiers June *26
Fruit juices – concentrates, strips flavor in 1 pass without vacuum. R.W. Eskew & others (tables) Jan. *70
Gravy – turkey giblet gravy introduced in frozen concentrate Sept. *24
Milk – frozen concentrated milk can be kept 1 year (P) Feb. 102
"Multi-Purpose Food" dietary protein concentrate, "3¢ meal" Nov. 28
Orange juice concentrate tested Mar. 24
Orange juice – Florida's concentrators of frozen orange juice join hands for future growth Sept. 54
Orange juice on a stick July *22

Confectionery
Baker's chips – redesigned packages feature "family look" Oct. *27
Big strides in controlling quality – report (charts) Aug. *66-69
Butterscotch Toll House Morsels now made by Nestle May *27
Cola candy in a straw – Sip-a-Cola to drink or to eat Sept. *24
Natural butterscotch powder Sept. 119
7 new machines that speed output – NCA Show in Chicago Nov. *71
Shrewd market focusing gets sales strategy "on target". J. V. Ziemba Mar. *42
Teaming of bulk methods brings big stride in handling ingredients. Alikonis & Olson Nov. *79

Construction
Now FE tells you "Who's building what" (ed) Apr. 43
Prefab panels make functional translucent walls (e) Mar. *97
Prefabs concrete buildings (e) Aug. *103
Tiles in sheets cut time and cost of installation (e) Oct. *133

Consumption of Food
FE reports on Europe. F. E. Lawler
Pt. 1 New frontier for U.S. foods Aug. *39-41
Pt. 2 Food revolution in Europe (charts) Sept. *39-42
Pt. 3 Food revolution in Europe (chart) Oct. *46-48
60% expansion in food sales by '69 Mar. 51

Containers
Aluminum can narrows price spread. Frank Pitman. Feb. *58
Can with flexible plastic spout developed for Wesson Oil Jan. *23
Cans – brewing company, another convert to aluminum cans Sept. *25
Cans – Coca-Cola in cans gets market test Sept. *24
Carton for eggs is functional and attractive May *26
Carton stapler (e) Dec. *117
Carton to display in 7 seconds July *22
Coffee can with all-season "picture label" Mar. *22
Composite container for shipping liquids combines polyethylene tank and wireboard overwrap Dec. 26
"Concept" design can keep your package from being "lost in supermarket jungle" Harley Earl Apr. *74
Corrugated cartons get full-color pictures with new litho process Aug. *27
Divisible corrugated carton, called Twin-Pac, for bulk food packing May *27
Dual-purpose containers Apr. 91
Folding Paper Box Assn. annual competition winners – 7 boxes May *67
Leak-proof berry carton Feb. *23
Polyethylene squeeze can Feb. *24
Puts draught beer in cans. Frank Pitman Feb. *97
Self-contained produce carton Mar. *23
Shelf-display shipping cases – "tray-packs" convert cartons to shelf merchandising Feb. *56
Shipping carton for poultry (e) Apr. 137
Shipping carton for Snow Crop frozen fruit juices redesigned Aug. *59
Spotlight on packaging "Don'ts" Mar. *57
Swedish frozen carton available Apr. *33
3-route container (e) Nov. *118

Continuous Processing
Converts soft white wheat to precooked rice-like product (chart) (P) June 111
Liquid coffee in aerosols Feb. *62
Lyons of London makes foods on conveyors – but fast! FE reports on Europe. F.K. Lawler Nov. *68-70
Makes vinegar continuously. Cohee & Steffen (table) Mar. *58
New process makes wort continuously (chart) Sept. *97
1-point control cuts labor 2/3 in Texas sugar refinery. Lorraine Smith Oct. *78
Tomato processor gears for boom business May *72
Top-efficient cherry canning at Dwan's – flowsheet June *77

Controls
Air jet safety device shuts off filler, prevents bottle jam-ups Jan. *75
Auto-controls water bean sprouts June *88
Automatic controls, signals speed cheese-making (A) Jan. 90
Batch control simplified to mere "plug-in" (e) Apr. *117
Computer process control (e) Nov. *118
18 advanced process controls demonstrated in special ISA display Nov. *89
"Electric eye" assemblies for inspections of moving items (e) Mar. *108
Electric eye warning. John Herzog Apr. *91
Gage, using radioisotope source, sharpens package-fill accuracy. Regas & Ziemba. (charts) Aug. *60
Instruments challenge foodmen – problems gaged by ISA speakers Nov. 88
Monitors remote controllers (e) Mar. *99
Multi-point temp monitor (e) Nov. 120
Multi-scales ingredients (e) Mar. *108
New temperature monitor (e) July *103
1-point control cuts labor 2/3 in Texas sugar refinery. Lorraine Smith Oct. *78
"Package" process controller (e) Mar. *107
Photoelectric eyes automate door action. Grant Vroman Mar. *67
Progress-control system (e) Dec. 121
Pushbutton steam control automates kettle operation. Minos Asproyerakas Mar. *68
Samples flow automatically (e) Aug. 105
Striking advances in "on the line" moisture control. Moore & Ziemba (charts) Aug. *82
Correction Sept. 100
Sure-signal annunciators (e) Nov. *121
Teams CIP with process control. E. Scott Welch & others Feb. *92
Tele-flashes scaling data (e) Apr. *129
Unit gives precise control of pre-set temperature (e) Jan. *106
Your 'ray' way to better inspection control – radioactive isotopes detect, check, regulate (charts). J. V. Ziemba May *88

Conveyors
Air-conveying system – new life for an old mill. Vanderlip & Ziemba Nov. *72
All-around 'scope conveyor (e) Sept. *112
Chalk up another for advanced conveying – mile-long system in Dutch warehouse moves 350 tons of cheese a week. W. van Wijnen. (chart) Aug. *89
Check-weighing speeded with second conveyor Feb. *83
Chocolate coating recovery system May *84
Conveyor system gently unloads bake ovens May *81
Cleats – "easy fit" conveyor cleats (e) Sept. *115
Elevator moves load gently (e) Feb. *126
Feeder for air conveyors (e) June 125
Fully-enclosed, self-cleaning conveyor for moving bulk granulars (e) Sept. *109
Flexible stop turns cases for easy unloading. S.S. Miller Apr. *91
Gravity-conveyor counter (e) Dec. *117
Handier spring-axle roller (e) July *104
Ice blower powers conveyor. Fred Yoit June 91
Kits for "tailored" conveyors (e) Feb. *126
Lyons of London makes foods on conveyors – but fast! FE reports on Europe. F.K.Lawler Nov. *68-70
Monorail gives 5 pluses Aug. *81
Pans no longer slip Mar. *71
Prevents case-sealer jams. William Parker Sept. *79
Rugged belt-conveyor line (e) Aug. 113
Screw conveyor drive (e) Dec. *118
Speeds travel of cans, jars (e) Mar. 100
Versatile pallet conveyor (e) Sept. *109
Vertical case conveyor Oct. *141
Vibrator serves 3-conveyors Oct. *92

Cooking
Fat-free frying, Pam Dry Fry Apr. *34
Sugar – thin-film sugar cooker (e) Apr. *119
Corn – Innovations spark new Colombian corn mill. Power & Huehner Feb. *66

Corrosion
Controlling sweat damage to cans (A) June 115
Inhibitor (e) June 137
$NaNO_2$ is unpredictable inhibitor (A) Oct. 120
Spray-on "rigid foam" shields structures from weather, corrosion (e) Oct. *135

Costs
Distribution $ – leaders show how to make it go further T. C. Taylor (charts) June *48
How to get proper perspective for cutting costs. C.E. French (charts) (table) Oct. 43
Modernizing eases cost-squeeze at Morton Salt Co. Kiefer & Frazier (chart) Sept. *84
Plugs up drains on profits (table) Feb. 49
Cranberries – Don't let the cranberry be a useless martyr (ed) Dec. 31

Cutter
Cutting units offer many new benefits. Urschel & Ziemba Feb. *72
Multi-purpose slicer (e) Dec. 117

D

Dairy Equipment
Consolidation of operations boosts quality, output at Rochester Dairy Cooperative. Hackman & Maas July *52
Heat pumps used instead of boiler system to dry skim milk – a major economic breakthrough. C.E. Zurborg & others (chart) July *84
Modern handling – low-cost way. Lyle Kellogg Apr. *89
"Package" dry-milk plant (e) Aug. *105
"Showcase plant" is processing and handling model. A. V. Gemmill May *70
24 dynamic units for better processing at Chicago dairy show Jan. *66

*Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents.

Dairy Products
Instant liquid stabilizer ... Aug. 114
National Dairy Council spotlights three markets ... May 58
Defense – QM action on flexible wraps, instant bread ... May 45

Dehydration
Apples – dehydrocanning process (P) ... May 101
Coffee – Target: improved soluble coffee Michael Sivetz (charts) ... May *92
Dryers – new fully automatic dryers (e) ... Sept. *107
Freeze-dried instant potatoes introduced by General Foods ... Dec. 47
Freeze-drying looks up (chart, tables). P. W. Patton ... June *78
Freeze drying speeded (A) ... Jan. 89
Gluten – new process permits spray-drying, preserves initial properties (chart & tables) ... Dec. *73
Handy drying unit (e) ... Sept. *116
Instant coffee – acid bodies captured and returned to make better instant coffee (P) ... Nov. *101
Instant coffee – controls automate drying operation for top quality. B.B. Ritchey ... Nov. *77
Instants – technique for improving instants uses new foam-mat-drying method. A.I. Morgan, Jr. & others (chart) ... Sept. *86
"Package" dry-milk plant (e) ... Aug. *105
Skim milk dried, concentrated by heat pumps at plant without a boiler system. C.E. Zurborg & others (chart) ... July *84
Solubility of dry whole milk upped with low-melting fat (A) ... Aug. 91
Tomato juice maintains expansion produced during drying (P) ... May 101
Trough-belt speeds drying (e) ... Mar. 103
Ultrasonics seen as valuable aid in drying heat-sensitive foods (A) ... Dec. *103
Desserts – Pillsbury moves 5 dessert mixes into national distribution ... Sept. *25
Diet – Ice cream for diabetics and others on restricted diet ... Feb. *22
Display stand spurs impulse buying (e) ... Jan. *105

Doors
Giant-door problems solved ... Aug. *78
Plastic cold-storage door curbs refrigeration loss (e) ... Feb. *127

Drives
Rotary dryer drive will reduce maintenance (e) ... Feb. *121
Screw conveyor drive (e) ... Dec. *118
Shaft-mounting vari-drive (e) ... June *130
V-belt drives cut costs (e) ... Mar. *112

Drums
Empties fat drum fast. B. R. Suri ... Feb. *83
Empties fat drum fast – re drum emptying ... May 84
Dryers – Infra-red sample dryer (e) ... Mar. *111

E

Eggs
Fluorescent pigment in spoiled eggs (A) ... Feb. 106
Salmonella bacteria detected by special media (A) ... May 105

Electronics
Computer process control (e) ... Nov. *118
Electronic sales check for faster control. T.C. Taylor ... Nov. *42
4-unit system gives small firms top data performance (e) ... Feb. *121
From Purdue's "electronic brain" came pointed perspectives on how to pick your product line. French & Hood (charts) ... Mar. *37
Frozen food packages designed for electronic ovens ... Dec. *25
Gage sharpens package-fill accuracy. Regas & Ziemba (charts) ... Aug. *60
Progress-control system (e) ... Dec. 121
Radiation counter gages lean fat ratio of meat (e) ... Jan. *103
Elevators – Bulk-material bucket elevator (e) ... Apr. *122

Engineering
Armour's new profit-building quality control. J. V. Ziemba ... Jan. *80
Gas-tight storage – without metal liner ... Jan. *83
Getting better screening – pointed tips on modern gyratory sifting. Lionel Moore ... Mar. *80
Problem: fat wastes – solution: flotation at GF plant (charts). J. G. Blair ... June *94

Enzymes
Controls color of fruit juices (A) ... Jan. 90
Flavor of processed foods improved by enzymes (A) ... June 116

Equipment
AMA's National Exposition – panorama of new packaging units ... May *60
Cooler – high-efficiency cooler (e) ... Nov. *116
Cutting units offer many new benefits Urschel & Ziemba ... Feb. *72
Do-it-yourself foundry. E. H. Heitfeld ... Dec. *81
Drying, blending, sterilizing performed in single unit (e) ... Jan. *110
Electric crusher simplifies disposal of empty and reject cans (e) ... Nov. *122
15 new packing, handling, processing units highlight Brewing Industries Exposition in Cleveland ... Dec. *93
Multi-purpose slicer (e) ... Dec. 117
7 new machines that speed output take spotlight at NCA Show in Chicago ... Nov. *71
Slicer – safety razor food slicer (e) ... Nov. 116
Slicer speeds bacon packaging (e) ... Nov. 121
Spotlight on latest machines at Chicago canners' show ... Apr. *84
Staple gun (e) ... Nov. *116
Stunner – humane-slaughtering tool (e) ... Nov. 116
Turbulent-film evaporator gives high product density (e) ... Jan *105

Evaporation
Gentle-action evaporator (e) ... June *125
Turbulent-film evaporator gives high product density (e) ... Jan. *105

Extraction
Coffee – acid bodies captured and returned to make better instant coffee (P) ... Nov. *101
Coffee – controls process for top quality B.B. Ritchey ... Nov. *77
Low density solvents best for soybeans (A) ... July 89
Meat extract substitute and extender available in paste and powder forms (e) ... May 122
Rennet extract offered in 1- and 5-gal. "cubitainers" ... Oct. 149
Stearines from winterized oil (e) ... Mar. *100

F

Federal Trade Commission – Show clean hands and cooperate in FTC probe (ed) ... Feb 31
Feed – Antibiotics added to feed produce heavier, healthier livestock ... Sept. *89

Feeders
Automatic unit feeds and opens bags for fill (e) ... July *103
Paddle wheels iron out feed problems ... Feb. *79
Vibrating feeder handles flows of 50 tph (e) ... Apr. *117

Fermentation
Amber Byf. new fermentation nutrient (e) ... Feb. 136
Beer fermentation controlled by automatic cold water system. William Hamilton ... June *91
Yeast fermentations (A) ... Apr. 107

Fillers
Accuracy of package-fill sharpened by gage. Regas & Ziemba (charts) ... Aug. *60
Automatic liquid rotary vacuum unit fills small containers at 100 min. (e) ... May *118
Filling-mixing automated ... June *88
High-performance can filler handles up to 300 cpm (e) ... May *115
Liquid filler employs 'no mess' nozzles (e) ... May *115
Liquid foods are dispensed into containers "bottom up" fashion (e) ... Mar. 100
Milk filler offers rapid carton-size changeover (e) ... Feb. *123
Puts draught beer in cans. Frank Pitman ... Feb. *97
Ram-filling that's gentle ... Nov. *83
Rotary piston filler (e) ... Mar. *99
Unit gives precise fillings ... June *92

Filtration
Automatic filters take over at Vegetable Oil Products Co. Stewart & Passalaqua ... Dec. *68
Efficiency cited for quick-coupling unit (e) ... Feb. *132
Filters water in new way (e) ... May *118
Synthetic-fiber material, Troyfelt, has many uses (e) ... Apr. 130
Tilt-type filter press (e) ... Apr. *133
Versatile easy-clean filter (e) ... Apr. *125

Finance
Better modernize "like sixty" for '60's! (ed) ... Sept. 33
Do credit unions really aid management? – Ole Sage episode. I.C. Miller ... Apr. *55
Europe offers big opportunity to US food firms (ed) ... Aug. 33
Food executives get pay raise. J. R. Grieb. (chart) (table) ... Sept. *43
GMA sets up coupon ground rules ... Aug. 56
How can the credit union help? – Ole Sage episode. I.C. Miller ... Mar. *41
Private labels vs. national brands – report
Power play at retail level (chart) ... Sept. *46-47
Interurbia – brand battle salient (chart) ... Oct. *52-56
Brand leaders prepare to meet challenge
Survey points up dynamic '59 – report T.C. Taylor (charts) ... Jan. 41
Thorns in those rosy profits ... Sept. 54

Fire Protection
Anti-fire insulating product (e) ... May *121
Check-points for sprinklers ... Aug. 78
Nose is best fire detector ... Aug. 77

Fish
Antibiotic now OK for fish ... May *41
Chlorinated sea water ups fish quality (A) ... Apr. 108
Enzymatic fish cleaning (A) ... Aug. 92
Ice consumption cut, fish quality upped by cold air circulation in trawler hold (A) ... Jan. 89
Introducing the "Fish-wich" – ready-to-cook, breaded, bun-size fish portion ... Sept. *24
Quality of frozen fish checked by solubility (A) ... Mar. 85
Seafood assortment gets distinctive foil inside and outside package ... Dec. *25
X-ray detector spots bone-bearing fillets (A) ... June 111

Flavoring
Beer – flavor intensity tested (A) ... Sept. 99
Bread – flavor of bread unharmed by lysine fortification (A) ... Apr. 107
Enzymes improve flavor of processed foods (A) ... June 116
Gas chromatography sharpens control of flavor components. E. C. Fearns (chart) ... July *78
Hickory-smoked flavoring (e) ... June 138
Pineapples – imitation pineapple flavor (e) ... Nov. 125
Soluble flavor (P) ... Nov. 101
Steak Baste – bright design sparks displays ... Feb. *23
Volatile flavor recovery and return feature new soluble coffee process (P) ... Apr. *107

Floors
Absorbent (e) ... June 137
Floor patching and resurfacing material (e) ... June 137
Floor section easily removed ... Sept. 83
Floor-treating material (e) ... June 134
Non-skid flooring assured with anti-corrosion resurfacing compound (e) ... Nov. 126
Steel-plate floorings (e) ... Dec. 121
Tough "trowel on" coating (e) ... Mar. 115
Work-floor at Peet's withstands meat-packing severities ... July *63

Flour
Gluten continuously from wheat flour (A) ... Feb. 101
Heating, moistening flour improves baking quality (P) ... May 105
Lipase activity in flours influences taste of foods (A) ... Dec. 106
Mix – improved culinary mix (P) ... Feb. 101
Mixes – double-wrap cake mixes ... Mar. *23
New life for an old mill. Vanderlip & Ziemba ... Nov. *72
Pneumatic system delivers 200 lb. of flour per min. (e) ... Jan. *101
Role of flour lipids (A) ... June 116
Special pneumatic system whisks loads 6 ways. O. D. Smithgall ... June *100
Water absorption varies with starch damage (A) ... July 91
Wheat gluten additive ... July 107

Flowmeters – automates flow control (e) ... Feb. *136
Flowsheets – Top-efficient cherry canning ... June *77

Food & Drug Administration
Don't be among casualties on additives day (ed) ... Nov. 33
How new additive law affects packaging Ingle & McCarthy ... July *42
Joint government-industry national conference discusses additives, other common problems – report. F.K. Lawler ... Dec. *37-41
Know your new additive law! F.K. Lawler (table) ... Jan. 46

Food Engineering Industry Analysis – see **Food Engineering Reports**

Food Engineering Reports
Big strides in controlling quality – report (charts) ... Aug. *66-69
Europe. F.K. Lawler
Pt. 1 Lausanne Congress ... Aug. *39-41
Pt. 2 Across Western Europe (charts) ... Sept. *39-42
Pt. 3 In various countries (chart) ... Oct. *46-48
Pt. 4 Lyons of London makes foods on conveyors – but fast! ... Nov. *68-70
Pt. 5 Dutch brewer has new ideas ... Dec. *60-61
Europe – French machine gang-packages food in plastic – fast. F.K. Lawler (chart) ... Sept. *62
Food colorimetry: key to quality control G.E. Livingston (tables)
Pt. 1 Available tools ... Mar. *74-79
Pt. 2 Specification systems ... Apr. *98-103
Gas chromatography: striking new guide to better foods. A.V. Gemmill (charts) ... July *77-83
Sharpens control of flavor components. E.C. Fearns ... July *78
GC strides in food research. L.S. Fagerson ... July *80
Targets gourmet qualities. W.S. Ryder, Jr. ... July 81
Problems "flavor prints" can solve. E.E. Lockhart ... July 82
Coming – an analytical revolution. D.A.M. Mackay ... July *82
Know your additives mess! F.K. Lawler ... Dec. *37-41
New handling techniques end "shipper" bottlenecks, speed casing operations J.V. Ziemba ... Oct. *64-68
Private labeling vs. national brands
Power play at retail level tightens vise on manufacturers (chart) ... Aug. *42-45
Interurbia – brand battle salient (chart) ... Sept. *46-47
Brand leaders outline steps to meet private-label challenge ... Oct. *52-56
Survey points up dynamic '59. T.C. Taylor (charts) ... Jan. 41
Food slicer – "Safety razor" food slicer (e) ... Nov. *116

Fruit Juices
Blends – Duffy-Mott markets 2 fruit juice blends ... Aug. *27
Concentrates, strips flavor in 1 pass without vacuum. R.W. Eskew & others (tables) ... Jan. *70
Enzyme controls color of fruit juices (A) ... Jan. 90
Frozen fruit juice on a stick ... Nov. *26
Orange juice – Florida's concentrators of frozen orange juice join hands for future growth ... Sept. 54
Orange juice – O_2 speeds ascorbic loss in canned orange juice (A) ... June 112
Orange juice concentrate tested ... Mar. 24
Orange juice on a stick ... July *22
Shipping carton for Snow Crop frozen juices redesigned ... Aug. *59
Tomato juice – dehydrating process maintains expansion produced while drying (P) ... May 101
Ultrasonics treatment speeds juice processing (P) ... Nov. 101

Fruits
Citrus rot controlled by low-dose irradiation (A) ... Oct. 117
Instrument measures maturity (A) ... May *101
Lemon – solvent $$ saved from air. J.B. Witwer ... Mar. *60
Ray-pasteurizing of produce – "threshold tactics" get favorable results. G.D. Gernon, Jr. ... May *42
Tenderness "charted" by modified shear press (A) ... Oct. *117
Fumigation – Packaged foods helped by vacuum fumigation (A) ... May 102
Fungicides – water-repellent preservative gives field crates extra years (e) ... May 122

G

Gages
Automatic bin-level gage (e) ... Dec. *118
Non-jiggle gage base (e) ... Dec. 121
Package-fill accuracy sharpened by gage using radioisotope source. Regas & Ziemba (charts) ... Aug. *60
Ray-gages piped material (e) ... Dec. *117

*Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents.

Transparent guard for gage. J.J. Alikonis — Nov. *87
Viscosimeter achieves new precision (e) — Oct. *146
Garlic – Shelf life of garlic powder longest at 6% moisture (A) — Dec. 103
Gas Chromatography – see **Chromatography**
Glass containers – "Wide-Top" jar introduced by Gerber — Dec. 26
Gloves – Canner's gloves of natural rubber and neoprene latex (e) — Nov. *119
Gluten – Spray-dried gluten – new process overcomes stickiness, preserves initial properties (chart & tables) — Dec. *73

Grading
Tenderness of fruits and vegetables "charted" by modified shear press (A) — Oct. *117
Tomatoes – new grading system (A) — Oct. 119

Grain
Bulk granulars sped through fully-enclosed conveyor (e) — Sept. *109
Factors influencing yield of beta-carotene (A) — Aug. 91

Grinding
Centrifugal comminutor speeds sausage making, ups catsup yield. A.V. Gemmill — June *74
Chocolate – new method ups accuracy of chocolate grind test (A) — Apr. 107
Tips on fine grinding from a spice firm. Roy Stiger. (chart) — Sept. *74
Grocery Manufacturers of America – Annual meeting told ethical trade practices can avert greater government intervention. T.C. Taylor — Dec. 45
Grocery Manufacturers of America – Two-way GMA meeting points ways to progress (ed) — July 27
Grout that takes 11,000 Psi. (e) — Mar. 115

H

Heaters
Catalytic heaters gobble fumes, save fuel (chart) — Dec. *65
Foolproof fuel tank preheating system (chart) Minos Asproyerakas — June 87
Quickly melts drum goods (e) — Apr. *126
Hoist – knock-down hoist frame is easily assembled (e) — Jan. *101
Homogenizer – Design ups operating efficiency(e) — Jan. *99
Honey – Comb honey wrapped in cellophane — June *27

I

Ice Cream
Dairy markets dietetic ice cream — Feb. *22
Mechanizes multi-unit packing. Roy Haire — Mar. *53
Modern handling – low-cost way – new concept in hardening-room design. Lyle Kellogg — Apr. *89
Plant of the future today – British ice cream factory features automatic central-panel control of receiving, mixing and freezing. Shirley Kendrick — Mar. *61

Infrared
Infrared blanching ups FF quality (A) — Dec. 103
Line-feed infra-red oven (e) — July 104
Sample dryer (e) — Mar. *111
Spectroscopy spots glyceride fat adulteration (A) — Feb. 106

Insecticides
Fly control – 6-point program assures fly-free plant. T.H. Huge — Aug. *86
Fog kills insects quickly — Nov. *97
New fly-control methods to get early tests (A) — July 91
Non-perfumed spray avoids odor contaminations (e) — May 122
Repellent dust bars insects from packages. T.L. Huge — Nov. *62
Silica dusts kill insects fast (A) — Feb. 101

Inspection of Food
Armour's new profit-building quality control. J.V. Ziemba — Jan. *80
"Dual eyes" simplify checks (e) — Mar. *108
Fish bone detector (A) — June 111
Fruit maturity measured by instrument (A) — May *101
Radioisotope devices detect, check and regulate. J.V. Ziemba (charts) — May *88
Instrument Society of America – Workshop speakers pinpoint problems and opportunities — Nov. 88

Instruments
Bottle walls measured (e) — Nov. *118
Capsule system gives new formulating precision (e) — Nov. *115
Colorimetric instruments and companies making them (table) — Apr. 102
Condensate-flow regulator replaces steam traps (e) — Nov. *119
Detector widens GC ion detection (e) — Sept. 107
18 advanced process controls demonstrated in special ISA display — Nov. *89
Food colorimetry: key to quality control – report. G.E. Livingston (tables)
Pt. 1 Available tools — Mar. *74-79
Pt. 2 Specification systems — Apr.*98-103
Foods analyzed – in-stream — Feb. *94
Fruit maturity measured by instrument (A) — May *101
Gas chromatograph for multi, high-purity separations (e) — May *113
Handy time-temp recorder (e) — Nov. *115
Hunter color difference meter determines color changes in fruit spreads. Brody & Bedrosian — Nov. *98
Instruments challenge foodmen – problems gaged by ISA speakers — Nov. 88
Moisture content may be determined rapidly with this unit (e) — Jan. *109
Multi-point temp monitor (e) — Nov. *120
New temperature monitor (e) — July *103
Off-weight indicator (e) — June *129
Process analyzer (e) — Apr. 134
Radiation counter gages lean fat ratio of meat (e) — Jan. *103
Secondary level indicator (e) — July *103
Shock absorbing base can be constructed with metal plates and tennis balls — Apr. *93
Sure-signal annunciators (e) — Nov. *121
Temperature regulation is offered by pneumatic controller (e) — Jan. *106
Transducer tabs automation motions (e) — Aug. *103
Viscometer checks starch viscosity — June *105
Viscosity indicator and control (e) — Aug. 103

Insulation
Anti-fire insulating product (e) — May *121
Gas-tight storage – without metal liner — Jan. *83
Lightweight insulation offers high thermal efficiency (e) — Jan. *101
Spray-on "rigid foam" shields structures from weather, corrosion (e) — Oct. *135
Irradiation – Reducing loss of thiamine from "ray" sterilization (A) — Nov. 105

J

Jams and Jellies
Individual portions measured, packaged by completely automatic machine — Dec. *59
Jell-O in double size package — Nov. *27

K

Kilns – Rotary dryer drive will reduce maintenance (e) — Feb. 121

L

Labeling
Cashes in on own label — Nov. *45
Catching the consumer's eye — Apr. *33
Coffee can with all-season "picture label" — Mar. *22
Portable label maker (e) — Sept. *116
Private labels get "new look" — June *69
Private labels pick up steam — Sept. 54
Private labels vs. national brands – report
Power play at retail level (chart) — Aug. *42-45
Interurbia – brand battle salient (chart) — Sept. *46-47
Brand leaders prepare to meet challenge — Oct. *52-56
Redesigned trademark for Red Devil — Dec. 26
Solves unusual label problem — Apr. *32
Table-top label maker (e) — Apr. *129

Labor
The case for "split" tech staffs – 3-level setup curbs waste of skills. L.E. Slater — Oct. *49
Do credit unions really aid management? – Ole Sage episode. I.C. Miller — Apr. *55
Factory "dining" perks away-from-home sales. E. Hochstim & R.C. Lifquist (table & chart) — Oct. *60
Free uniforms boost morale — Mar. *40
How can the credit union help? – Ole Sage episode. I.C. Miller — Mar. *41
How handle wage garnishments? – Ole Sage episode. I.C. Miller — Feb. *45
Poor salesmen – or poor public relations? Ole Sage episode. I.C. Miller — June *47
Price to be paid for technological progress(ed) — Oct. 33

Law and Legislation
Additives – Know your additives mess! – report. F.K. Lawler — Dec. *37-41
Congress inquiry spotlights concentration of chain buying power. C.R.Havighorst — Nov. *46
Don't let the cranberry be a useless martyr(ed) — Dec. 31
Get your additive chips in line, pronto (ed) — Jan. 35
How new additive law affects your packages. Ingle & McCarthy — July *42
Know your new additive law! F.K. Lawler (table) — Jan. 46
Meat – humane slaughter legislation gets rolling — Oct. *108
Robinson-Patman Act will be enforced, FTC chairman tells GMA meeting. T.C.Taylor — Dec. 45
Show clean hands and cooperate in FTC probe (ed) — Feb. 31
Lights and Lighting – Group relamping cuts cost — May 83
Lubrication – Rust solvent (e) — Dec. 118

M

Machines
AMA's National Exposition – panorama of new packaging units — May *60
Automatic peanut sampler (A) — Sept. 100
Blister-pack attachment (e) — Aug. *106
Cans made in many sizes by new machine (e) — Aug. *110
Carton shredder pays 3 benefits (e) — Sept. *107
Case assembler handles up to 600 cases per hr. (e) — Oct. *146
Do-it-yourself foundry. E.H.Heitfeld — Dec. *81
Extruder – for quantities of semi-solid food (e) — May 113
15 new packing, handling, processing units highlight Brewing Industries Exposition in Cleveland — Dec. *93
Forms containers at 70 min. — Oct. *145
Gang-packages foods in plastic fast – French machine molds, fills, seals containers at speeds to 16,000 per hr. F.K.Lawler (chart) — Sept. *62
Homogenizer design ups operating efficiency (e) — Jan. *99
Institute of American Poultry Industries show displays new equipment — May *79
PMMI show displays 29 units for better packaging — Dec. *56
Patty former hits high speed (e) — July *104
Rotating leveler streamlines bin discharge and filling (e) — Aug. *105
7 new machines that speed output take spotlight at NCA Show in Chicago — Nov. *71
Spotlight on latest machines at Chicago canners' show — Apr. *84
Tabber speeds paperwork (e) — May *115
Tenderness of fruits and vegetables "charted" by modified shear press (A) — Oct. *117
24 dynamic units for better processing at Chicago dairy show — Jan. *66
Unit curbs bacteria, molds (e) — Sept. 107
Unit makes more and flakier sticks at Frisco Baking Co. Jack Meyer — Aug. *70

Maintenance
Break in underground water pipeline pinpointed by inflated rubber tube C.S.Benner — Jan. *75
Ice and snow melting compound (e) — Nov. 125
Liquid roof coating (e) — June 134
Plastic hoe solves yeast harvesting problem. William Hamilton — Jan. *76
Practical tips — Feb. 84
Spray-on "rigid foam" shields structures from weather, corrosion (e) — Oct. *135
Water-repellent preservative gives field crates extra years (e) — May 122

Malt
Gibberellinic acid improves malt (A) — May 101
Gibberellins aid malting (A) — July 92
Multi benefits apparent in new malts. W.J. Olson — Oct. *103
What malt is . . . types described — Oct. 104

Management
Armour's new profit-building quality control – SQC organized by headquarters & plant teams. J.V. Ziemba — Jan. *80
Blueprint for better government challenges industry (ed) — Apr. 43
Bring politics into your total marketing concept (ed) — June 35
Broker can be No. 1 ally — Apr. *65
Building blocks of better trade relations — Dec. *42
Can you grow good executives? Virginia Van Zandt — Feb. *37
Carnation's Junior Board puts new punch in management. C.R. Havighorst — June *41
The case for "split" tech staffs – 3-level setup curbs waste of skills. L.E. Slater — Oct. *49
Chains ready counterattack. T.C.Taylor — Nov. 48
Congress inquiry spotlights concentration of chain buying power. C.R. Havighorst — Nov. *46
Do credit unions really aid management? – Ole Sage episode. I.C. Miller — Apr. *55
Food executives get pay raise. J.R. Grieb. (chart & table) — Sept. *43
How can the credit union help? – Ole Sage episode. I.C. Miller — Mar. *41
How handle wage garnishments? – Ole Sage episode. I.C. Miller — Feb. *45
How to plan research for profit. A.G. Olsen
Pt. 1 Objectives and costs — Nov. *39
Pt. 2 Managing the team — Dec. *99
Improves feed-back from field — July 38
Is your distribution keeping pace? – Ole Sage episode. I.C. Miller — Jan. *51
Minute Maid acquires Tenco, soluble coffee producer — Oct. 63
New marketing set-up at GM teams "planners" and "doers" (charts) — May *48
Poor salesmen – or poor public relations? – Ole Sage episode. I.C.Miller — June *47
Price to be paid for technological progress(ed) — Oct. 33
Quaker Oats' latest marketing reorganization — June 58
Shrewd market focusing gets sales strategy "on target". J.V. Ziemba — Mar. *42
Survey points up dynamic '59 – report. T.C. Taylor (charts) — Jan. 41
TV for in-plant remote viewing (e) — Sept. *115
There's built-in "stay ahead" in Pillsbury's new distribution. J.V. Ziemba (map) — Jan. *52
Top executives discuss company plans – 17 presidents tell FE how they are blueprinting cost curbs, improved selling, new efficiency — Jan. *43
Top-to-bottom safety operation permits self-insurance – Mayer's six basics for safety. J.V. Ziemba — June *44

Where will they eat tomorrow? — Dec. 47
Who bought whom? — Nov. 54
Why not "marketing expenditures"? — July 38
Words on package rate extra care — Jan. 59
Your real cue is buyer behavior. William Balsham (table) — Apr. *68

Materials Handling
Automated warehouse – special picture-and-blueprint feature gives you revealing closeup of Jerseymaid's robot order-filling — Dec. *88
Batching made dust-proof — May *81
Bucket elevator (e) — Apr. *122
Bulk-bagger improved (e) — Mar. *107
Bulk handler is cost-saving (e) — Mar. *99
Bulk sugar handling setup – mechanized Multi-Bin (chart). R. E. Ryan — June *99
Cart cuts labor 1 3 — July *71
Clamp-trucks speed case handling — Mar. *67
Collapsible lug folds to 3 inches (e) — July *103
Conveyors – Lyons of London makes foods on conveyors – but fast – FE reports on Europe. F.K. Lawler — Nov. *68-70
Dial-a-bin system automates flow of dry materials – ingenious bulk-flow controls up handling efficiency. M. Asproyerakas — Feb. *88
Drying, blending, sterilizing performed in single unit (e) — Jan. *110
Easy does it hoist — Feb. *80
15 new packing, handling, processing units highlight Brewing Industries Exposition in Cleveland — Dec. *93
Flexible stop turns cases for easy unloading. S.S. Miller — Apr. *91
Fold-stack boxes (e) — Dec. *117
Handy transport bin (e) — Sept. *109
High-run bag palletizer (e) — Aug. *105
Hinged-bottom basket speeds poultry handling — Oct. *89
Hoist frame is easily assembled (e) — Jan *101
Hydraulic tank-tipper cuts dumping time — Aug. *77
Lift-&-dump drum handler can be adapted for handling bags (e) — Nov. *120
Lightweight dock plate has safety surface for maximum power-truck traction (e) — May *117
Modern handling – low-cost way. Lyle Kellogg — Apr. *89
More lift for fork truck. C.W. Richardson — Sept. *79
Multi loads pay multi benefits – brewer's forktruck fleet speeds palleted goods through production, storage, and shipping — June *96
Multi-purpose stacker (e) — Apr. *130
New handling techniques end "shipper" bottlenecks, speed casing operations – report. J.V. Ziemba — Oct. *64-68
New life for an old mill. Vanderlip & Ziemba — Nov. *72
19 units to ease handlings — Oct. *80
Over-size fork lift truck speeds pallet unloading. W.A. Ten Eyck — Apr. *93
Pallet bins, hydraulic dumper cut handling costs — May *81
Pallets out, savings in – improved system uses truck device and special stacking pattern (chart). J.G. Kunner — June 106
Pans no longer slip — Mar. *71
Pea viner changes bring gains. Fred Vogt — July *68
Plant-made unit controls can flow. E.H.Heitfeld — Dec. *81
Plant transporter (e) — June *134
Platforms speed unloading of live turkeys — Oct. *91
Pneumatic system delivers 200 lb. of flour per min. (e) — Jan. *101
Pneumatic system whisks flour loads 6 ways. O.D. Smithgall — June *100
Pouring rack (e) — June *130
Pre-assembled freight — Mar. 68
Racks – bakery-pan washing rack (e) — Nov. *125
Racks – jiffy-rig storage racks (e) — Nov. *115
Rails speed meat handling — Jan. *76
Ship-ladder saves space. C.W. Richard — June *87
"Showcase plant" is processing and handling model. A.V. Gemmill — May *70
Space-and-handling solution at ice cream plant — Nov. *84
Stock cart has chart rack and coupling hook for forming units into trains (e) — Aug. *109
Storage rails (e) — May *121
Striking step-up in can handling. C.R. Havighorst — Nov. *60
Tagging last case of run prevents mixup on pallet. K.M. Strauss — Dec. 85
Teaming of bulk methods brings big stride in handling ingredients. Alikonis & Olson — Nov. *79
Tube "pallets" protect bags — Aug *77
Tube-bin slashes handling costs at Diamond Walnut Growers. West & Havighorst — Aug. *72
Unitized loads enable faster handling — June *87
Vacuum-cup case handler for lift-trucks (e) — Aug. *110
Vibrating feeder handles flows of 50 tph (e) — Apr. *117
What's ahead in handling? G.I. Ross — Aug. 67
Wire-type toter (e) — Oct. *145

Meat
AMI Research Conference – practical tips on aging, freezing, hydrating and X-raying meat — May 99
Bacon package features perforated sections to tear off as needed — Sept. *60
Bacon packaged in windowed "sleeve" boxes (e) — Aug. *105
Bacon – slicer speeds packaging (e) — Nov. 121
Bacteria source of cured-meat flavor (A) — July 89
Better livestock profits packers — Sept. *89
Extruder – for quantities of semi-solid foods (e) — May 113
Foil cook-ins – new packaging for fresh meat — Aug. *63
Foil trays for fresh meat — July *22
Grinding unit for sausage-type meat products. A.V. Gemill — June *74
Hamburger "steak" — Mar. *22
Hickory-smoked canned ham suggested by consumer complaints — June 58
New challenge for meat packers — Dec. 47
Plant-to-market speedup – transportable reefer-container delivers 5 tons of meat at a time — Sept. *51
Pork color influenced by pH (A) — June 111
Rails speed meat handling — Jan. *76
Sauce with meatballs added to Buitoni line — Dec. *24
Slaughter – humane slaughter legislation gets rolling — Oct. *108
Slaughter – humane-slaughter stunner (e) — Nov. 116
Slicer (e) — Dec. 117
Spray guards meat color (P) — Oct. 119
Thawing whole carcasses prevents excessive drip (A) — Feb. 110
3-way meat tenderizer — Aug. 113
Whither frozen meats? J.V. Ziemba — Apr. *62

Meters
Off-weight indicator (e) — June *129
Viscosimeter achieves new precision (e) — Oct. *146

Milk
Bagged ice cools milk during truck delivery — Oct. 91
Consolidation of operations boosts quality and output at Rochester Dairy Cooperative. Hackman & Maas — July *52
Crystallized milk cakes for Japanese soldiers — June *26
Dry milk packer (chart) Rudy Schweiss — July 67
Dry-milk problems in sharper focus at U. of Wisconsin conference — Jan. 84
Frozen concentrated milk can be kept 1 year (P) — Feb. 102
How to get proper perspective for cutting costs. C.E. French (charts & table) — Oct. 43
"Package" dry-milk plant (e) — Aug. *105
Skim milk dried, concentrated by heat pumps in plant without a boiler system. C.E. Zurborg & others (chart) — July *84
Solubility of dry whole milk upped with low-melting fat (A) — Aug. 91
Mills – Innovations spark new Colombian corn mill. Power & Huehner — Feb. *66

Mixers
Advanced-control mixer (e) — July *107
Air-mix, special mixer (e) — Dec. 121
Continuous mixer for lab (e) — Sept. 107
Filling-mixing automated — June *88
"Flow" blender for mixes (e) — Mar. *99
New flexible coupling solves mixer problems — Oct. *89
Newest trick in mixing – pressurized device speeds output — May *74
Ribbon blender combines sanitation, mixing efficiency (e) — Feb. *124

Modernization
Better modernize "like sixty" for '60's! — Sept. 33
Consolidation of operations boosts quality, output at Rochester Dairy Cooperative. Hackman & Maas — July *52
Cost-squeeze eased by modernizing the power plant. Kiefer & Frazier (chart) — Sept. *84
Don't be left behind by fast pace in '59 (ed) — Jan. 35
Industry moves ahead with plan '59 – to modernize now for growth and profit — Jan. 29
Is your distribution keeping pace? – Ole Sage episode. I.C. Miller — Jan. *51
Pie bakery holds profit line with automation. Alexander Astrack — Apr. *82
Sara Lee's new bakery – dream plant come true. J.V. Ziemba — Oct. *83
Smarter your revamp, bigger the savings. A.C. Eichberg — Apr. *79
Updated kitchens spur product development at Pillsbury — July *32

Moisture
Belt is specially treated to resist moisture (e) — Jan. *110
Garlic powder can be stored well at 6% moisture (A) — Dec. 103
Rapidly tests for moisture with 0.1% accuracy (e) — Jan. *109
Striking advances in "on the line" moisture control. Moore & Ziemba (charts) — Aug. *82
Correction — Sept 100
Motors – High-performance motors (e) — May *117

Mushrooms
Characteristic flavor lacking in cultured mushrooms (A) — Jan. 89
Mushroom washer (A) — Aug. 95
Mustard – Heinz mustard sauce introduced — July *23

N

NCA Committee on Retort Equipment & Operation – Check retort operations — June *82
National Fancy Food and Confection Show – International food display — Oct. *27
Nutrition – Effects of additives and processing discussed at national conference – report. F.K. Lawler — Dec. *37-41

Nuts
Coating for nutmeats — Oct. 149
Gas keeps nuts fresher (A) — Nov. 102
Protecting nut meats (P) — Jan. 89
Tube-bin slashes handling costs at Diamond Walnut Growers. West & Havighorst — Aug. *72

O

Odors
Gas chromatography permits sensitive control of odors. L.S. Fagerson (chart) — July *80
Irradiation odor of chicken meat (A) — Dec. 105

Oils and Fats
Closed refining system improves oil quality (A) — Feb. 109
Cocoa butter color gaged (A) — Nov. 101

*Illustrated (A) Abstract (e) Equipment (ed) Editorial (P) Patents

Fat-free frying, Pam Dry Fry — Apr. *34
Findings on synthesis of fat (A) — July 89
Low density solvents best for soybeans (A) — July 89
Oxidative changes in fats detected with thiocyanate (A) — Dec. 103
Simplifies extraction of stearines from winterized oil (e) — Mar. *100
Spread, made from Canadian oils, has wide plastic range (A) — May 101
Testing rancidity of fats (A) — June 112

Ole Sage – Ivan C. Miller
Is your distribution keeping pace? — Jan. *51
How handle wage garnishments? — Feb. *45
How can the credit union help? — Mar. *41
Do credit unions really aid management? — Apr. *55
Poor salesmen – or poor public relations? — June *47
How "relate" workers in public relations? — Aug. *47
Is public relations worth it? — Oct. *51
Ovens – Unique oven guards quality – special thermal control system — Mar. *63

P

Packaging
AMA's National Exposition – panorama of new packaging units — May *60
Aerosol packaging unit produces up to 600 cans/hr. — Oct. *138
Aluminum foil "dream packages" – boilable packages frozen food — Apr. *32
Aluminum foil wrap for scout cookies — Aug. *26
Aluminum packages for frozen food designed for electronic ovens — Dec. *25
Automatic poly overwrappers now "on stream" T.C. Taylor — Oct. *70
Automatic unit feeds and opens bags for fill (e) — July *103
Automatic web-splicer (e) — May *117
Bacon package features perforated sections to tear off as needed — Sept. *60
Bacon packages with appetizing 4-color illustrations on the overwrap — Mar. *23
Baker's chips – redesigned packages feature "family look" — Oct. *27
Bars insects from packages, T.L. Huge — Nov. *62
Blister-pack attachment (e) — Aug. *106
Boil-in-a-bag package for individual entrees is new approach to institutional service — May *26
Boilable bags contain shrimp and crab seasonings — June *27
Boilable foil packages — Apr. *32
Boilable pillow-packs for frozen baby food — Apr. *32
Bread sales boosted 500% by new wrap — Sept. *25
Bread sticks and pizza packaged together — June *27
Bright design sparks displays — Feb. *23
Bright new package for Stouffer's frozen foods — July *23
Bulk-bagger improved (e) — Mar. *107
Butter in convenient, luxury foil wrap meets competition of low-priced spreads — Dec. *50
Cans replace paper cartons for Sauce-Quik — Dec. *24
Carton for shipping poultry (e) — Apr. 137
Carton stapler (e) — Dec. *117
Carton to display in 7 seconds — July *22
Cast polyethylene film improves package, cuts costs — Mar. *54
Catching the consumer's eye — Apr. *33
Champions spark Wheaties cereal cartons — Sept. *25
Chicken – whole precooked chicken in aluminum foil tray — Jan. *24
Chocolate peppermints displayer holds 24 packages — Nov. *27
Chocolate syrup in pressure can — Mar. *24
Cold glue and high frequency technique cut costs of carton sealing — Oct. *69
Cookies for the home circle — Nov. *27
Cost-cutting disposable box — Nov. *83
Crab on the (aluminum) half shell — Feb. *22
Dip mix line making its debut after 2 years of market research — Jan. *22
"Double size" Jell-O — Nov. *27
Double-wrap cake mixes — Mar. *23
Dual-purpose containers — Apr. 91
Economical aluminum can narrows price spread Frank Pitman — Feb. *58
Egg carton of acetate and styrene is functional and attractive — May *26
Family-size survival kit — June *26
15 new packing, handling, processing units highlight Brewing Industries Exposition in Cleveland — Dec. *93
Flexible bag for instant soft drink — June *28
Flexibles wraps for frozen foods rated — June 60
Foil cook-ins – new packaging for fresh meat — Aug. *63
Foil inside and out makes quality package for seafood assortment — Dec. *25
Foil "skin" for potatoes — Aug. *26
Foil trays for fresh meat — July *22
Folding Paper Box Assn. annual competition winners – 7 boxes — May *67
Food concentrates for dispensing equipment – solves unusual label problem — Apr. *32
Fruit juice on a stick — Nov. *26
Fruit pie overwraps — Nov. *26
Gang-packages foods in plastic fast – French machine molds, fills, seals up to 16,000 containers per hr. F.K.Lawler (chart) — Sept. *62
Giant-sized tea bag — July *22
Handier bacon cartoning (e) — Aug. *105
Hinged spout for aerosol — Feb. *22
Horizontal packager wraps non-uniform items (e) — July *101
How to insure top performance of your new packaging machine, L.S. Frantz — Jan. *60
Jams and jellies – completely automatic machine produces filled and heat-sealed aluminum containers for individual service — Dec. *59
Ketchup in portion pack — Jan. *23
Leak-proof berry carton — Feb. *23
Liquid instant coffee in aerosol — Jan. *22
Mechanizes multi-unit packing, Roy Haire — Mar. *53
Moisture-resistant corrugated box — Jan. *23
Multi-pack contains envelopes of Carnation Instant — Mar. *27
Multi-pack for canned pop — July *23
Multi-pack for salad dressing — Aug. *26
Multi-packs 2-to-12-unit cartons at 70 per min. (e) — Feb. *123
Mylar-polyethylene cook-in pouches for frozen vegetables — Jan. *23
New design for beer cans and six-pack carton aids brand identification — Dec. *25
New handling techniques end "shipper" bottlenecks, speed casing operations – report, J.V. Ziemba — Oct. *64-68
"New look" for cereal line — Aug. *26
New packages and products Jan.*22, Feb. *22, Mar. *22, Apr. *32, May *26, June *26, July *22, Aug. *26, Sept. *24, Oct. *26, Nov. *26, — Dec. *24
Nothing short of total packaging concept will do (ed) — May 35
"Our follow-up put it over!" — Mar. *45
Pay-off packages and wraps displayed at AMA show — May *64
Pepper miniatures, companion items for Morton salt miniatures — Nov. *27
Pizza package – newest idea in fractional packaging — Mar. *23
Pizza sandwiches in 4-color carton over-wrapped in cellophane — Nov. *26
Plastic film for produce "breathes" — Oct. *26
PMMI Show features 29 units for better packaging — Dec. *56
Polyethylene pouch boosts frozen berry sales (chart) — July *46
Poultry packers' Rx: freezing + film solves problems for Arkansas firm — Sept. *67
Pouring nozzle for oil can — Jan. *23
"Press and stick" boxes make debut — Jan. *22
Prestige packaging sparks private-label push — Jan. *62
Private labels get "new look" — June *69
Protective packaging sharpens quality control program at Ryser, Stephen Gaymont — June *62
PVC liners for heavy duty (e) — Dec. 117
QN action on flexible wraps — May *45
Quick-open bacon box — Jan. *24
Radical new approach groups Armour's packaging activities under purchasing department — Sept. *60
Ram-filling that's gentle — Nov. *83
Research creates "effortless" design — Feb. *22
Safety seal for cups — Mar. *22
Salad mixes get redesigned package, new promotion — Oct. *26
Self-contained produce carton — Mar. *23
7 new machines that speed output take spotlight at NCA Show in Chicago — Nov. *71
Shelf-display shipping cases — Feb. *56
"Ship 'n sell" case makes winner out of sleeper — Nov. *66
Shipping carton converts to tray pack for canned soup — Dec. 26
Shipping carton for Snow Crop frozen fruit juices redesigned — Aug. *59
Shortens tabs, saves film (e) — Feb. *128
Slashes can-seaming costs — Nov. *64
Smarter your revamp, bigger the savings, A.C. Eichberg — Apr. *79
Speedy film-bagging unit (e) — Apr. *122
Spotlight on packaging "don'ts" — Mar. *57
Striking step-up in can handling, C.R. Havighorst — Nov. *60
Swedish frozen carton available — Apr. *33
Tailored combination: liquid coffee in aerosols — Feb. *62
"Tapless" home keg for beer — Nov. *26
Tea packages with a Canadian look — June *26
3-D packaging – new sales tool, Harley Earl — Apr. *74
Throw-away bottles for carbonated beverages — Oct. *26
Tight reclosure in new carton for sugar "Cubes" — Dec. *24
Tips on displays that pull customers to your package, H.M.Turner Jr. — Feb. *46
Trademark, window spark packages — Apr. *33
Tray pack: it slashes handling costs — Apr. *76
Trick carton sparks sales — Feb. *23
Tune in 3-can multi-pack — Jan. *22
24 dynamic units for better processing at Chicago dairy show — Jan. *66
2-in-1 design wins top versatility — Apr. *80
Unit spreads cartoned products uniformly, streamlines packaging (e) — July *107
Valves aerosols at 120 min. (e) — Feb. *124
Vibra-table aids packaging (e) — Sept. *109
Vinegar samples – in bags! — Oct. *27
Waterproof merchandiser for asparagus — July *24

Packing
Cashes in on own label — Nov. *45
Dry milk packer (chart) Rudy Schweiss — July 67
End-loading casers cut costs at Miller Brewing Co. — June *65
15 new packing units highlight Brewing Industries Exposition in Cleveland — Dec. *93
New handling techniques end "shipper" bottlenecks, speed casing operations – report, J.V. Ziemba — Oct. *64-68
Packing-line unit lids 100 aluminum trays a minute (e) — Aug. *105
Unitized loads enable faster handling — June *87
Wire strapper (e) — June *129

Paints
Mold-inhibiting paint (e) — Dec. 118
Preservative paint (e) — June 138

Pallets
Eliminated by new handler truck (e) — Oct. *135
Pallet method cancels brewer's case-by-case bottlenecks — June *96
Tagging last case of run prevents mixup on pallet, K.M. Strauss — Dec. 85
Tube "pallets" protect bags — Aug. *77

Paper
Oil impregnated paper controls apple scald (A) — Jan. 89
Paper-type strapping offers 300-lb. tensile strength (e) — Jan. 109

Pasteurization
Heat pumps used instead of a boiler system to pasteurize skim milk, C.E. Zurborg & others (chart) — July *84
Ray-pasteurizing of produce – "threshold tactics" get favorable results, G.D.Gemon, Jr. — May *42
Peanuts – Automatic peanut sampler (A) — Sept. 100

Peas
Light speeds deterioration of frozen film-pack peas (A) — Sept. 100
Viner changes tring gains, Fred Vogt — July *68
Pectin – Pectinase supplement — Aug. 113
Peeling – Tomato canner speeds peeling 20% — Sept. *77
Pennsylvania Mfg. Confectioners' Assn. – Big strides in controlling quality highlight meeting (charts) — Aug. *66-69

Pepper
Liquid pepper (P) — Jan. 89
Morton salt gets mate — Nov. *27

Pest Control
Fly control – 6-point program assures fly-free plant, T.H. Huge — Aug. *86
New fly-control methods to get early tests (A) — July 91
Photography – Photocopies made by new process (e) — Apr. 134

Pickles
Dill pickles improved by sugar in spice brine (A) — Dec. 106
Pectinolytic fungi in brine cause pickles to soften (A) — June 111

Pipes
Break in underground water pipeline pinpointed by inflated rubber tube, C.S.Benner — Jan. *75
Foamglas Stay-Dry pipe cover is economical (e) — Feb. *135
Pipe-joint-sealing dope available in roll form (e) — Jan. 114
Stainless spring hanger speeds pipe assembly, Henry Maas — Feb. *79
Teflon pipe gaskets (e) — Apr. 134

Plant Layout
Automated warehouse – special picture-and-blueprint feature gives you revealing closeup of Jerseymaid's robot order-filling — Dec. *88
Cherries – top efficient canning system uses bulk-tank inflow – flowsheet — June *77
Freeze-drying looks up (chart & tables), P.W. Patton — June *78
Fruit juice concentrating process, R.W.Eskew & others (tables) — Jan. *70
Ingenious bulk-flow controls up handling efficiency, M. Asproyerakas — Feb. *88
Solvent $$ saved from air, J.B. Witwer — Mar. *60
Soy proteins – how they are made, J.J.Alikonis (tables) — Apr. *104
Striking step-up in can handling at Gerber, C.R. Havighorst — Nov. *60
Tomato processor gears for boom business — May *72

Plastics
Bench tops and sinks made from Duracor (e) — Apr. 137
Boil-in-a-bag package for individual entrees is new approach to institutional service — May *26
"Breathing" film for produce — Oct. *26
Cast polyethylene film improves package, cuts costs — Mar. *54
Coated foods (P) — Mar. 83
Cold-storage door of plastic curbs refrigeration loss (e) — Feb. *127
Film + freezing solves problems for Arkansas poultry packer — Sept. *67
Gang-packages foods in plastic fast – French machine molds, fills, seals up to 16,000 containers per hr. F.K. Lawler (chart) — Sept. *62
Polyethylene – automatic overwrappers broaden packaging range of low-cost film, T.C. Taylor — Oct. *70
Polyethylene pouch boosts frozen berry sales (chart) — July *46
Polyethylene – tough film for heavy duty bags features 40% lower material gage (e) — Oct. 135
PVC liners for heavy duty (e) — Dec. 117
Teflon pipe gaskets (e) — Apr. 134
Vinyl – anti-glare window vinyl (e) — Dec. *115
Viton, new polymer-base packing resists heat, corrosion (e) — Jan. 101

Politics
Blueprint for better government challenges industry (ed) — Apr. 43
Bring politics into your total marketing concept (ed) — June 35

Potatoes
Antibiotics extend shelf life of pre-peeled potato strips (A) — Nov. 101
Au gratin potatoes introduced in cans — Dec. *25
Foil "skin" for potatoes — Aug. *26
Freeze-dried instant potatoes launched by General Foods — Dec. 47
Protecting color, flavor of dehydrated potatoes (P) — Aug. 92
Pillsbury's instant Mashed and Quick Hash Brown Potatoes move into national distribution — Sept. *25
Sweet potatoes – high sugar syrup improves frozen sweet potatoes (A) — Oct. 117
Test market potato products — Apr. *33

Poultry
Better livestock profits packers — Sept. *89
Chicken meat irradiated under anaerobic

*Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents.

conditions develops an irradiation odor (A) Dec. 105
Chicken – whole precooked chicken in aluminum foil tray Jan. *24
Hinged-bottom basket speeds poultry handling Oct. *89
Institute of American Poultry Industries show displays new equipment May *79
Packers Rx: freezing + film solves problems for Arkansas firm Sept. *67
Turkey – frozen quarter sections packaged by Armour May *27
Turkey giblet gravy introduced in frozen concentrate Sept. *24
Turkeys – platforms speed unloading of live turkeys Oct. *91
Yeast species predominate on antibiotic-treated birds (A) Feb. 101
Power – Turbo-generator and increased steam pressure ease costs at Morton Salt Co. Kiefer & Frazier (chart) Sept. *84

Printing
Box printer prints carton on 4 sides at 3500 per hr. (e) Jan. *101
Cartons printed as formed (e) July *104
Case printer – quick-change case printer (e) Mar. *99
Case printing unit prints cartons faster (e) Oct. *133
Copies documents in 19 seconds (e) Sept. 109
Corrugated cartons get full-color pictures with new litho process Aug. *27
Imprints lithographed cans (e) Aug. *106
Imprints 100 jar lids per min (e) Feb. *131
Lithographed cans for vegetables Aug. *27
Portable label maker (e) Sept. *116
Table-top label maker (e) Apr. *129
Xerography speeds copies, streamlines Gerber's paperwork Feb. *42

Production
Consolidation of operations boosts quality, output at Rochester Dairy Cooperative. Hackman & Maas July *52
How central graphic panels automate bulk-food operation. Dyer & Young (chart) Sept. *70

Production Control
Cost-analysis system – plugs up drains on profits (table) Feb. 49
Electronic sales check for faster control. T.C. Taylor Nov. *42
Gravity-conveyor counter (e) Dec. *117
How Gerber streamlines its paper work – xerography speeds copies hence circulation of essential forms, reports, charts, and drawings Feb. *42
New handling techniques end "shipper" bottlenecks, speed casing operations – report. J.V. Ziemba Oct. *64-68
Plant of the future today – automation is the word for British ice cream factory. Shirley Kendrick Mar. *61
Pneumatic can-drop control made in do-it-yourself foundry. E.H. Heitfeld Dec. *81
Striking advances in "on the line" moisture control. Moore & Ziemba (charts) Aug. *82
Correction Sept. 100
Tagging last case of run prevents mixup on pallet. K.M. Strauss Dec. 85

Proteins
"Multi-Purpose Food", dietary protein concentrate, "3¢ meal" Nov. 28
Soy proteins – high amino-acid content and low cost make them ideal for food fortification. J.J. Alikonis (tables) Apr. *104
Puddings – Stabilizer for sherbets (e) June 138

Pumps
Air-signal metering pump (e) Mar. *97
Battery-run pump (e) Apr. 134
Free-piston pump moves anything that flows (e) (chart) Aug. *103
Heat pumps used instead of boiler system to dry skim milk – a major economic break-through. C.E. Zurborg & others (chart) July *84
Low-to-high metering pump (e) Mar. *104
Packaged high-vacuum pump (e) Nov. *116
Portable vari-speed pumps solve transfer problems May *81
Sanitary sampling pump (e) Oct. *142
Vari-volume filling pump (e) Nov. 115
Versatile metering pump (e) July *104

Q

Quality Control
Antibiotics extend shelf life of pre-peeled potato strips (A) Nov. 101
Armour's new profit-building quality control. J.V. Ziemba Jan. *80
Bars insects from packages. T.L. Huge Nov. *62
Beer – B-lysolecithin now seen as source of beer foam (A) Mar. 86
Beer foam evaluation (A) Feb. 102
Beer – modified malting process improves beer quality (A) Nov. 105
Beverages – preventing chill haze (P) Mar. 86
Big strides in controlling quality – report (charts) Aug. *66-69
Brownberry Ovens' home-style quality rockets small firm into big time. J.V. Ziemba Sept. *48
Check retort operations. NCA Committee on Retort Equipment & Operation June *82
Cider pectin degraded by organisms and enzymes (A) Nov. 102
Citric acid in media ups diacetyl yield (A) Feb. 110
Citrus fruit decay controlled by low-dose irradiation (A) Oct. 117
Cocoa butter color gaged (A) Nov. 101
Controls process for top quality instant coffee. B.B. Ritchey Nov. *77
Cure's synthetic sweetener, ups quality of fried bacon (e) Jan. 113
Deoxygenating granules (P) Feb. 105
Dill pickles improved by sugar in spice brine (A) Dec. 106
Dry-milk problems in sharper focus at U. of Wisconsin conference Jan. 84
Effect of antioxidants on some food products (A) Feb. 109
Fish – chlorinated sea water ups quality (A) Apr. 108
Fish quality upped, ice consumption cut by cold air circulation in trawler hold (A) Jan. 89
Floc in sugar syrups (A) Apr. 107
Flour – activity of lipase in flours influences taste of foods (A) Dec. 106
Fluorescent pigment in spoiled eggs (A) Feb. 106
Food colorimetry: key to quality control – report. G.E. Livingston (tables) Mar. *74-79
Pt 1 Available tools Mar. *74-79
Pt 2 Specification systems Apr. *98-103
Foods analyzed – in-stream Feb. *94
Free uniforms boost morale – sharpen quality control for Eastern baker Mar. *40
Frozen fish quality checked by solubility (A) Mar. 85
Fruit preserves cooled for quality. Brody & Bedrosian Nov. *98
Garlic powder can be stored well at 6% moisture (A) Dec. 103
GC detects substitute fats in chocolate products (A) Oct. 119
Gas chromatography: striking new guide to better foods. A.V. Gemmill (charts) – report July *77-83
Gas keeps nuts fresher (A) Nov. 102
High-rate test centrifuge (e) Apr. *117
Hops and hopping – quality control simplified (A) Sept. 97
How detergents improve produce (chart) July 57
Infrared spectroscopy spots glyceride fat adulteration (A) Feb. 106
Meat – spray guards color (P) Oct. 119
Meat – transportable 5-ton reefer-container maintains meat quality by speeding delivery Sept. *51
Meat pies – storage cuts bacteria in frozen meat pies (A) Dec. 105
Oat cereals – heating during processing cuts life (A) Mar. 85
Oil quality improved by closed refining system (A) Feb. 109
Oxidative changes in fats detected with thiocyanate (A) Dec. 103
Protective packaging sharpens quality control program at Ryser. Stephen Gaymont June *62
Quaternary ammonia compounds used in food plant sanitation are quickly checked with compact kit (e) Dec. *115
Quick-check QC chart Apr. *91
Soy proteins – high amino-acid content and low cost make them ideal for food fortification. J.J. Alikonis (tables) Apr. *104
Starch – accurately checks starch viscosity June *105
Striking advances in "on the line" moisture control. Moore & Ziemba (charts Aug. *82
Correction Sept. 100
Sweet potatoes – high sugar syrup improves frozen sweet potatoes (A) Oct. 117
Tenderness of fruits and vegetables "charted" by modified shear press (A) Oct. *117
Thawing whole carcasses prevents excessive drip (A) Feb. 110
Unique oven guards quality – Belgian unit gives precise control of heat input by conduction, convection, radiation Mar. *63
Vitamin K_5 – natural food bactericide (A) Jan. 89
Winter-season precautions for care of cellophane Nov. *83

Quick Freezing
Aluminum cans for frozens Oct. *74
Boilable foil packages Apr. *32
Coffee concentrate packed in aerosol cans Aug. *28
Flexible wraps for frozen foods rated June 60
Freeze-dried instant potatoes added to General Foods line Dec. 47
Freeze-drying looks up P. W. Patton (charts and tables) June *78
Freeze drying speeded (A) Jan. 89
Frozen dinners marketed by Swift Aug. *27
Frozen rice June *26
Gravy – turkey giblet gravy introduced in frozen concentrate Sept. *24
Infrared blanching ups FF quality (A) Dec. 103
In-store baking – freezing is key Feb. *75
Italian cuisine enters frozen food market Feb. *23
Light speeds deterioration of frozen film-pack peas (A) Sept. 100
Loose frozen fruits and vegetables now offered in polyethylene bags June *61
Orange juice on a stick July *22
Poultry packers Rx: freezing + film solves problems for Arkansas firm Sept. *62
Prestige packaging sparks private-label push Jan. *62
Storage cuts bacteria in frozen meat pies (A) Dec. 105
Sweet potatoes – high sugar syrup improves frozen sweet potatoes (A) Oct. 117
Thawing whole carcasses prevents excessive drip (A) Feb. 110
Turkey – frozen quarter sections packaged by Armour May *27
Vegetables – seven new frozens Jan. *23
Whither frozen meats? J.V. Ziemba Apr. *62

R

Racks
Bakery-pan washing rack (e) Nov. *125
Jiffy-rig storage racks (e) Nov. *115

Radiation
Citrus fruit decay controlled by low-dose irradiation (A) Oct. 117
Food-raying units offered (e) June 125
Off-flavors and odors in irradiated meats (A) Dec. 105
Preservative effects of food irradiation (A) Oct. 117
Ray-pasteurizing of produce – "threshold tactics" get favorable results. G.D.Gemon, Jr. May *42
Your 'ray' way to better inspection control J.V. Ziemba (charts) May *88

Radio
Better service – by 2-way radio Nov. *44
Radio-operated, door-opening devices. Grant Vroman Mar. *67

Refrigeration
Antibiotics now OK for fish May *41
Bagged ice cools milk during truck delivery Oct. 91
Blasts of CO_2 chill cars Sept. *79
Compact low-temperature booster (e) Dec. *115
Fish quality upped, ice consumption cut by cold air circulation in trawler hold (A) Jan. 89
Heavy-duty truck reefer (e) Sept. 109
Meat – transportable 5-ton reefer-container maintains meat quality by speeding delivery Sept. *51
New 350-ton chiller (e) Mar. *104
Plastic cold-storage door curbs refrigeration loss (e) Feb. *127
Plate-type ice maker (e) June *127
Prevents damage to reefer. C.E. Gross (chart) Sept. *80
6-station package freezer (e) Apr. 117
Sub-zero trailer reefer (e) July 103
Versatile product cooler (e) Feb. *121

Research
AMI Research Conference – practical tips on aging, freezing, hydrating and X-raying meat May 99
Cleaning – studies pinpoint 5 factors for effective in-place cleaning. W.G. Jennings (charts) Oct. *98
Gas chromatography: striking new guide to be better foods – report A.V. Gemmill (charts) July *77-83
How to pick your product line – researchers pinpoint data with "electronic brain" French & Hood (charts) Mar. *37
How to plan research for profit. A.G. Olsen
Pt. 1 Objectives and costs Nov. *39
Pt. 2 Managing the team Dec. *99
Pillsbury spurs product development with updated kitchens July *32
R & D, its birth and growth Nov. 41
Survey points up dynamic '59 – report. T.C.Taylor (charts) Jan. 41
Your real cue is buyer behavior William Belshem (table) Apr. *68
Resins – New high-impact epoxy (e) Mar. 115

Rice
Cohesiveness of cooked kernels reduced by emulsions (A) Oct. 120
Frozen rice June *26

S

Safety
Checkpoints for sprinklers Aug. 78
"Clocks" on bulletin board stress accident prevention Aug. *77
Electric eye provides safety on packaging machines Sept. *79
"Injured" dummy aids safety Aug. *77
Lift-truck warning bell July *68
National Safety Congress gives three awards to Oscar Mayer June 45
Non-skid floorings assured with anti-corrosion resurfacing compound (e) Nov. 126
Nose is best fire detector Aug. 77
Prevents damage to reefer. C.E. Gross (chart) Sept. *80
Top-to-bottom safety operation permits self-insurance – Mayer's six basics for safety. J.V. Ziemba June *44
Transparent guard for gage. J.J. Alikonis Nov. *87

Salad Dressing
Cheese flavored dressing (P) June 115
Salad mixes get second launching Oct. *26
Sampling – Automatic device for fast mass sampling (e) Dec. *115

Sanitation
Batching made dust-proof May *81
Cleanability of materials (A) Apr. 108
Effective in-place cleaning. W.G. Jennings (charts) Oct. *98
Filters improve cleaning of plant air (e) July *101
Fly control – 6-point program assures fly-free plant. T.H. Huge Aug. *86
Fog kills insects quickly Nov. *97
Free uniforms boost morale Mar. *40
Germ-control product, "Sani-Dust" (e) Dec. 121
Quaternary ammonia compounds used in food plant sanitation are quickly checked for concentration with compact kit (e) Dec. *115
Sodium bromide boosts hypochlorite sanitizer (A) Apr. 109
Sterilant for walls and floors is potent against micro-organisms (e) May 122
Walking lawn sprinkler really cleans tanks Feb. *79
"We put 1 worker in every 10 on sanitation" Alfred Lingo Feb. *40
What not to do in plant sanitation Ray Millard Apr. *52

Sauces
Clam sauce Feb. *24
Clam sauce with tomatoes, new Buitoni item May *28
Heinz line adds mustard and barbecue sauces July *23
Ketchup in portion pack Jan. *23
Sauce with meatballs added to Buitoni line Dec. *24
Sauce-Quik switches to cans Dec. *24
Turkey giblet gravy introduced in frozen concentration Sept. *24

*Illustrated (A) Abstract (e) Equipment (ed) Editorial (P) Patents

Scales
Cuts bread "giveaways" (e) Apr. *121
Multi-scales ingredients (e) Mar. *108
Segregating checkweigher (e) Nov. *118

Screens
Anti-blinding "taper" screen (e) Mar. *111
Getting better screening – pointed tips on modern gyratory sifting. Lionel Moore Mar. *80
Seals – Safety seal for cups Mar. *22

Sealers
Cold glue and high frequency technique cut costs of carton sealing Oct. *69
Film saved with use of new automatic sealing and cut-off device (e) Feb. *128
Foil container closer operates at 600 /min. (e) Feb. *124
Pipe-joint-sealing dope available in roll form (e) Jan. 114
"Single-strip" case sealer (e) Apr. *119

Separation
Gas chromatograph for multi, high-purity separations (e) May *113
Top-efficiency cyclone operates in 4,000 to 6,000-plus cfm range (e) May *117

Shipping
Air-shipping – plus-profit by air-shipping Feb. *43
End-loading casers cut costs at Miller Brewing Co. June *65
New handling techniques end "shipper" bottlenecks, speed casing operations – report. J.V. Ziemba Oct. *64-68
3-route container (e) Nov. *118
Tray pack: it slashes handling costs Apr. *76

Syrups and Molasses
Chocolate syrup packed in pressure can Mar. *24
Floc in sugar syrups (A) Apr. 107

Slaughter see **Equipment, Meat**

Soybeans
Low density solvents best for solvents (A) July 89
Those new soy proteins. J.J. Alikonis (table) Apr. *104
Spaghetti – Italian-style spaghetti Mar. *22

Spices
Shrimp and crab seasonings in boilable bags June *27
Tips on fine grinding from a spice firm. Roy Stiger (chart) Sept. *74

Starch
Free-flow anti-humid starch July 107
Gelatinized wheat starch Aug. 114
Quality control device accurately checks starch viscosity June *105
Water absorption varies with starch damage (A) July 91

Steam
Check retort operations. NCA Committee on Retort Equipment & Operation June *82
Steam-saving check list. A.F. Delong Mar. 67
Turbo-generator and increased steam pressure ease costs at Morton Salt Co. Kiefer & Frazier (chart) Sept. *84
Sterilization – Reducing loss of thiamine from "ray" sterilization (A) Nov. 105

Storing
Automatic warehouse – special picture-and-blueprint feature gives you revealing closeup of Jerseymaid's robot order-filling Dec. *88
"Drive-in" storage racks (e) Sept. *112
Gas-tight storage – without metal liner Jan. *83
Remote control warehouses may be next in cutting distribution costs Dec. 47
Space-and-handling solution at ice cream plant Nov. *84

Strawberries
Frozen berries now in aluminum cans Oct. *74
Polyethylene pouch boosts frozen berry sales (chart) July *46

Sugar
Automate bulk-food operation in beet sugar plant. Dyer & Young (chart) Sept. *71
Bulk sugar handling setup – mechanized Multi-Bin R.E. Ryan (chart) June *99
"Cubes" in redesigned carton with tighter closure Dec. *24
Liquid sugars automatically processed at Great Western by timed-program system. J.V. Ziemba (chart) Dec. *62
1-man sugar-service plant Nov. *51
1-point control cuts labor 2/3 at Texas refinery's melt house. Lorraine Smith Oct. *78
Thin-film sugar cooker (e) Apr. *119
Sweepers – Tight-aisle sweeper (e) Apr. *119

Sweeteners
New sweeteners (e) Dec. 118
Synthetic sweetener as cure ups quality of fried bacon (e) Jan. 113
Switches – Electric eye trouble solved with time delay switch. E.R. Woodman (chart) July 67

T

Tags – Plastic sheaths guard tags (e) Apr. *133
Tanks – Foolproof fuel tank preheating system Minos Asproyerakas (chart) June 87

Taste-tests
Fruit spreads cooled for quality – tests demonstrate 34-36F. storage benefits flavor and color. Brody & Bedrosian Nov. *98
Gas chromatography targets gourmet qualities. W.S. Ryder, Jr. July 81

Tea
Giant-sized tea bag July *22
New process improves soluble tea (P) (chart) Aug. 91
Packages with a Canadian look June *26
Television – TV going to the hogs Dec. *82
Temperature – Tomato juice yields influenced by preheating temperatures (A) Sept. 99
Thiamine – Reducing loss of thiamine from "ray" sterilization (A) Nov. 105

Technology
The case for "split" tech staffs – 3-level setup curbs waste of skills. L.E. Slater Oct. *49
Price to be paid for technological progress (ed) Oct. 33

Tomatoes
Canner speeds peeling 20% Sept. *77
Catsup – centrifugal comminutor ups yield. A.V. Gemmill June *74
Instant tomato paste powder improved by new foam-drying method. A.I. Morgan, Jr. & others (chart) Sept. *86
Juice yields influenced by preheating temperatures (A) Sept. 99
New grading system (A) Oct. 119
Processor's "4-way boost" gears productivity to mounting sales May *72
Training – Can you grow good executives? Virginia Van Zandt Feb. *37

Trucks and Trucking
Blasts of CO_2 chill cars Sept. *79
Clamp-trucks speed case handling Mar. *67
Extra-load V-6 tractor (e) Oct. *135
Fork lift for tight areas (e) Apr. 119
Fork's weighing attachment eases inventory control (e) Feb. *124
Handler eliminates pallets (e) Oct. *135
Heavy-duty truck reefer (e) Sept. 109
Instant-power fork lift (e) Dec. *115
Lift for "low-bridge" work (e) Apr. *125
Lift-truck attachment transports drums of any size (e) Oct. *141
Lift-truck ideal for tight quarters (e) May 113
Lift-truck – powerful narrow-aisle lifter (e) Feb. *135
Lift-truck warning bell July *68
Making fork truck safer. Hy Beitscher Feb. 79
More lift for fork truck. C.W. Richardson Sept. *79
Multi loads pay multi benefits – brewer's forktruck fleet speeds palleted goods between production, storage and shipping June *96
Narrow-aisle stacker tiers palletized materials (e) May *115
New milk-truck body (e) Aug. *109
Over-size fork lift truck speeds pallet unloading. W.A. Ten Eyck Apr. *93
Pallets out, savings in – improved system uses truck device and special stacking pattern J.G. Kunner (chart) June 106
Plant-to-market speedup – transportable reefer-container delivers 5 tons of meat at a time Sept. *51
Plant transporter (e) June *134
Pre-assembled freight Mar. 68
Prevents damage to reefer. C.E. Gross (chart) Sept. *80
"Spraying elevator" speeds truck cleaning May *96
Sub-zero trailer reefer (e) July 103
Tractor-trailer with roomier van body for bigger hauls of light foods June *55
Truck washer comes in prefab, "do-it-yourself" package Oct. *138
Vacuum powered case handler for lift-trucks (e) Aug. *110

U

Ultrasonics
Brewery now cleans with ultrasonics. E.K. Minor June *72
Cheese curd gives better product in less time with ultrasonic treatment (chart) (P) July *89
Cleans parts ultrasonically (e) Oct. *137
Treatment with ultrasonics speeds juice processing (P) Nov. 101
Valuable aid in drying heat-sensitive foods (A) Dec. *103

V

Valves
Anti-choke air valve clears line stoppage May 81
Augmented aerosol valve (e) Apr. 137
Flanges as "sight-valves". Henry Maas Sept. *80
Precision flow valve (e) Feb. *131
Pressure-thrifty dispenser (e) Sept. *111

Vegetables
How detergents improve produce. A.W. Emery (chart) July 57
Preventing discoloration of canned green vegetables (P) Apr. 109
Ray-pasteurizing of produce – "threshhold tactics" get favorable results. G.D. Gemon, Jr. May *42
Tenderness "charted" by modified shear press (A) Oct. *117

Vending Machines
Brews coffee by the cup July *23
Hot-food venders: booming market. A.D. Stevens (charts) July *29

Vibrators
Dry milk packer. Rudy Schweiss (chart) July 67
Vibra-table aids packaging (e) Sept. *109
Vibrator serves 3 conveyors Oct. *92
Vibrolator keeps materials flowing (e) June *133

Vinegar
Makes vinegar continuously. Cohee & Steffen (table) Mar. *58
Samples – in bags! Oct. *27

Vitamins
Vitamin C relatively stable in natural fruit drink (A) Feb. 102
Vitamin K_5 – natural food bactericide (A) Jan. 89

W

Walls – prefab panels make functional translucent walls (e) Mar. *97

Washing
How detergents improve produce. A.W. Emery. (chart) July 57
Mushroom washer (A) Aug. 95
Truck washer comes in prefab, "do-it-yourself" package Oct. *138

Waste Disposal
Problem: fat wastes – solution: flotation at GF plant (charts). J.G. Blair June *94
Self-dump hoppers cut labor Oct. 89

Water Treatment
Chlorinated sea water ups fish quality (A) Apr. 108
Corrosion – $NaNO_2$ is unpredictable inhibitor (A) Oct. 120
Filters water in new way (e) May *118

Weighing
Capsule system gives new formulating precision (e) Nov. *115
Check-weighing speeded with second conveyor Feb. *83
Continuous checkweigher (e) Oct. *133
Cuts bread "giveaways" (e) Apr. *121
Fork's weighing attachment eases inventory control (e) Feb. *124
How to pick your product line – check-weighing all factors is primary. French & Hood (charts) Mar. *37
Multi-scales ingredients (e) Mar. *108
"Scales" fruit and sugar into cans automatically. Brown & Phillips Jan. *75
Segregating checkweigher (e) Nov. *118
Tele-flashes scaling data (e) Apr. *129
Wheat – Process converts soft white wheat to precooked rice-like product (chart) (P) June 111
Whey – Peroxide as whey preservative (A) Sept. 97

Wines
Champagne – precedent-breaking system triples output at Masson's winery. L.A. Berti July *50
Champagne without alcohol is new grape juice extract Dec. *26

Wrapping
Automatic poly overwrappers now "on stream" T.C. Taylor Oct. *70
Bread sales boosted 500% by new wrap Sept. *25
Comb honey wrapped in cellophane June *27
Do holiday wraps pay? Feb. 53
Flexible wraps for frozen foods rated June 60
Packaging rate doubled with overriding clutch. Pat Parker July *67
Pay-off packages and wraps displayed at AMA show May *64
Polyethylene bags – new wrap for loose frozen vegetables and fruits June *61
QM action on flexible wraps May 45
Tip Top's new "split T" package – 2-in-1 design wins top versatility Apr. *80
Two-way overwrap can be displayed vertically or horizontally Dec. 26

X

Xerography – How Gerber streamlines its paperwork Feb. *42

Y

Yeast
Ammonia in worts (A) Aug. 95
Detection of strains in pitching yeast (A) Aug. 91
Fermentations (A) Apr. 107
Hickory smoked torula yeast Sept. 119
Plastic hoe solves yeast harvesting problem. William Hamilton Jan. *76
Torula yeast is specific for monosaccharides (e) Jan. 113

AUTHORS' INDEX

A

Aceto, Nicholas C. & others – Concentrates, strips flavor in 1 pass without vacuum Jan. *70

Berti, Leo A. – Precedent-breaking winery — July *50
Blair, James G. – Problem: fat wastes – solution: flotation — June *94
Brody, A.L. & Karakian Bedrosian – Spreads cooled for quality — Nov. *98
Brown, A.E. & L.Phillips – "Scales" fruit and sugar into cans automatically — Jan. *75

C

Claffey, Joseph B. & others – Concentrates, strips flavor in 1 pass without vacuum — Jan. *70
Cohee, R.F. & Grover Steffen – Makes vinegar continuously — Mar. *58
Cross, J. A. & others – Boilerless plant uses heat pumps — July *84

D

DeLong, Arthur F. – Steam-saving check list — Mar. 67
Dyer, H.C. & W.S. Young – How central graphic panels automate bulk-food operation — Sept. *70

E

Earl, Harley – 3-D packaging – new sales tool — Apr. *74
Eichberg, A.C. – Smarter your revamp, bigger the saving — Apr. *79
Eisenhardt, Nelson & others – Concentrates, strips flavor in 1 pass without vacuum — Jan. *70
Emery, Albert W. – How detergents improve produce — July 57
Eskew, Roderick W. & others – Concentrates, strips flavor in 1 pass without vacuum — Jan. *70

F

Fagerson, L.S. – Gas chromatography strides in food research — July *80
Fearns, Edward C. – Sharpens control of flavor components — July *78
Frantz, Louis S. – How to insure top performance of your new packaging machine — Jan. *60
Frazier, W.G. & Robert Kiefer – Modernizing the power plant — Sept. *84
French, Charles E. – How to get proper perspective for cutting costs — Oct. 43
French, C.E. & R.W. Hood – How to pick your product line — Mar. *37

G

Gaymont, Stephen – Packaging "sentinels" sharpen quality control program — June *61
Gemmill, Arthur V. – Better grinding with new unit — June *74
Gas chromatography: striking new guide to better foods — July *77-83
"Showcase plant" is processing and handling model — May *70
Gemon, Gerald D., Jr. – "Ray-pasteurizing of produce will come first" — May *42
Ginnette, L.F. & others – Technique for improving instants — Sept. *86
Graham, R.P. & others – Technique for improving instants — Sept. *86
Grieb, J. Richard – Food executives get pay raise — Sept. *43
Gross, Clyde E. – Prevents damage to reefer — Sept. *80

H

Hackman, Frank & Henry Maas – Consolidation brings economy — July *52
Haire, Roy – Mechanizes multi-unit packing — Mar. *53
Hamilton, William – Automatic cold water system controls beer fermentation — June *91
Plastic hoe solves yeast harvesting problem — Jan. *76
Walking lawn sprinkler really cleans tanks — Feb. *79
Havighorst, C.R. – Camation's Junior Board puts new punch in management — June *41
Congress inquiry spotlights concentration of chain buying power — Nov. *46
"Fact-smog" snaffles probe — Dec. *46
Striking step-up in can handling — Nov. *60
Havighorst, C.R. & J.H. West – Tube-bin slashes handling costs — Aug. *72
Heitfeld, E.H. – Do-it-yourself foundry — Dec. *81
Plant-made unit controls can flow — Dec. *81
Henry, W. Ray – What a trade relations director can do for you — Dec. *42
Herzog, John – Electric-eye warning — Apr. *91
Hochstim, Esther & R.C. Lifquist – Factory "dining" perks away-from-home sales — Oct. *60
Hood, R.W. & C.E. French – How to pick your product line — Mar. *37
Huehner, R.F., & J.W. Power – Innovations spark new corn mill — Feb. *66
Huge, T.L. – Bars insects from packages — Nov. *62
6-point program assures fly-free plant — Aug. *86

I

Ingle, G.W. & R.A. McCarthy – How new additive law affects your packages — July *42

J

Jennings, Walter G. – Effective in-place cleaning — Oct. *98

K

Kellogg, Lyle – Modern handling – low-cost way — Apr. *89
Kendrick, Shirley – Plant of the future today — Mar. *61
Kiefer, Robert & W.G. Frazier – Modernizing the power plant — Sept. *84
Kunner, John G. – Pallets out, savings in — June 106

L

Lawler, Frank K. – FF reports on Europe
Pt. 1 Aug. *39-41, Pt. 2 Sept. *39-42,
Pt. 3 Oct. *46-48, Pt. 4 Nov. *68-70,
Pt. 5 — Dec. *60-61
Gang-packages foods in plastic – fast — Sept. *62
Know your additives mess! — Dec. *37
Know your new additive law! — Jan. 46
Lifquist, R.C. and Esther Hochstim – Factory "dining" perks away-from-home sales — Oct. *60
Lingo, Alfred – "We put 1 worker in every 10 on sanitation" — Feb. *40
Livingston, Gideon E. – Food colorimetry: key to quality control
Pt. 1 Mar. *74-79, Pt. 2 — Apr. *98-103
Lockhart, Ernest E. – Problems "flavor prints" can solve — July 82

M

Maas, Henry – Stainless spring hanger speeds pipe assembly — Feb. *79
Maas, Henry & Frank Hackman – Consolidation brings economy — July *52
Mackay, Donald A.M. – Coming – an analytical revolution — July *82
McCarthy, R.A. & G.W. Ingle – How new additive law affects your packages — July *42
Meyer, Jack – Makes flakier 'sticks — Aug. *70
Millard, Ray – What not to do in plant sanitation — Apr. 52
Miller, Ivan C. – Ole Sage episode
Jan. *51, Feb. *45, Mar. *41, Apr. *55,
June *47, Aug. *47, — Oct. *51
Miller, S.S. – Flexible stop turn cases for easy unloading — Apr. *91
Minor, Edward K. – Processor now cleans with ultrasonics — June *72
Moore, Lionel – Getting better screening — Mar. *80
Moore, R.R. & J.V. Ziemba – Striking advances in "on the line" moisture control — Aug. *82
Morgan, A.I., Jr. & others – Technique for improving instants — Sept. *86

O

Olsen, Aksel – How to plan research for profit
Pt. 1 — Nov. *39
Pt. 2 — Dec. *99
Olson, C.L. & J.J. Alikonis – Big stride in handling ingredients — Nov. *79
Olson, William J. – See multi benefits in new malts — Oct. *103

P

Parker, Pat – Packaging rate doubled with overriding clutch — July *67
Parker, William – Prevents case-sealer jams — Sept. *79
Passalaqua, Frank & Don Stewart – Now – automatic filters take over — Dec. *68
Patton, Paul W. – Freeze-drying looks up — June *78
Phillips, L., & A.E. Brown – "scales" fruit and sugar into cans automatically — Jan. *75
Pitman, Frank – Economical aluminum can narrows price spread — Feb. *58
Puts draught beer in cans — Feb. *97
Power, J.W. & R.F. Huehner – Innovations spark new corn mill — Feb. *66

R

Randall, J.M. & others – Technique for improving instants — Sept. *86
Regas, S. & J.V. Ziemba – Sharpens package-fill accuracy — Aug. *60
Richard, C.W. – Ship-ladder saves space — June *87
Richardson, C.W. – More lift for fork truck — Sept. *79
Ritchey, Burton – Controls process for top quality — Nov. *77
Roberts, James & others – Teams CIP with process control — Feb. *92
Aug. 67
Ross, G.I. – What's ahead in handling? — July *84
Ross, Vic & others – Boilerless plant uses heat pumps — June *99
Ryan, R.E. – Now – "low-cost" sugar handling — July 81
Ryder, William S., Jr. – Targets gourmet qualities

S

Schweiss, Rudy – Dry milk packer — July 67
Sivetz, Michael – Target: improved soluble coffee — May *92
Smith, Lorraine – 1-point control cuts labor 2/3 — Oct. *78
Smithgall, Oren D. – Special pneumatic system whisks loads 6 ways — June *100
Steffen, Grover & R.F. Cohee – Makes vinegar continuously — Mar. *58
Stevens, Arthur D. – Hot-food vendors: booming market — July *29
Stewart, Don & Frank Passalaqua – Now – automatic filters take over — Dec. *68
Stiger, Roy – Tips on fine grinding — Sept. *74
Strauss, Karl M. – Tagging last case of run prevents mixup on pallet — Dec. 85
Suri, B.R. – Empties fat drum fast — Feb. *83

T

Taylor, Thayer C. – Are you set to ride youth boom? — Apr. *49
Automatic poly overwrappers now "on stream" — Oct. *70
Chains ready counterattack — Nov. 48
Electronic sales check for faster control — Nov. *42
GMA meeting told: clean house is boom insurance — Dec. 45
In-store QC and shopper service spur premium foods — Aug. *49
Leaders show how to make distribution $ go further — June *48
Survey points up dynamic '59 — Jan. 41
Ten Eyck, W.A. – Over-size fork lift truck speeds pallet unloading — Apr. *93
Turner, Howard M., Jr. – Tips on displays that pull customers to your package — Feb. *46

U

Urschel, Joe & J.V. Ziemba – Cutting units offer many new benefits — Feb. *72

V

Vanderlip, H.D. & J.V. Ziemba – New life for an old mill — Nov. *72
van Wijnen, W. – Chalk up another for advanced conveying! — Aug. *89
Van Zandt, Virginia – Can you grow good executives? — Feb. *37
Vogt, Fred – Viner changes bring gains — July *68
Vroman, Grant – "Eyes" automate door action — Mar. *67

W

Welch, E. Scott & others – Teams CIP with process control — Feb. *92
West, J.H. & C.R. Havighorst – Tube-bin slashes handling costs — Aug. *72
Witwer, J.B. – Solvent $$ saved from air — Mar. *60
Woodman, Edgar R. – "Eye" trouble solved — July 67

Y

Yoit, Fred – Ice blower powers conveyor — June 91
Young, W.S. & H.C. Dyer – How central graphic panels automate bulk-food operation — Sept. *70

Z

Ziemba, John V. – Armour's new profit-building quality control — Jan. *80
Dream plant come true — Oct. *83
New handling techniques end "shipper" bottlenecks — Oct. *64
Shrewd market focusing gets sales strategy "on target" — Mar. *42
There's built-in "stay ahead" in Pillsbury's new distribution — Jan. *52
Timed-program system "robots" processing — Dec. *62
Top-to-bottom safety operation permits self-insurance — June *44
Whither frozen meats? — Apr. *62
Your 'ray' way to better control — May *88
Ziemba, J.V. & R.R. Moore – Striking advances in "on the line" moisture control — Aug. *82
Ziemba, John V. & others – Teams CIP with process control — Feb. *92
Ziemba, J.V. & S. Regas – Sharpens package-fill accuracy — Aug. *60
Ziemba, J.V. & Joe Urschel – Cutting units offer many new benefits — Feb. *72
Ziemba, J.V. & H.D. Vanderlip – New life for an old mill — Nov. *72
Zurborg, Carl E. & others – Boilerless plant uses heat pumps — July *84
